Final Plans for Harbor Pool OK, Bids Open Soon

The Los Angeles City Recreation and Park Department Monday approved final plans for the Harbor Park Swimming Pool and bathhouse and set Thursday, Aug. 19, at 10 a.m. as the date it will open bids for the project.

Plans for the Harbor Park pool and bathhouse were drawn by the architectural firm of A. Quincy Jones and Frederick E. Emmons. The plunge will be financed under provisions of the 1947 bond issue for additional municipal pools and playgrounds.

According to the Recreation and Park Department, the Harbor Park pool will be constructed on municipal property bounded by N. Figueroa and "L" Sts. Wilmington, across the street from Harbor Junior College.

George Hjelte, the Recreation and Park Department's general manager, reported that the plunge will be 60 feet wide and 120 feet long, with its depth ranging from a minimum of three and a half feet at each end to a maximum of nine feet in the center.

The pool will be heated, its decks will be warmed by radiant heating, and its open-air dressing rooms will be surrounded by a 10-foot masonry wall. Its check room and comfort facilities will be covered, Hjelte reported.

Japanese May Get Repair Jobs on F-86

North American Aviation, Inc. and Shin Mitsubishi Reorganized, Ltd., of Tokyo, have signed an agreement which would give the Japanese company limited rights to repair and manufacture parts for United States Air Force F-86's stationed in the Far East.

The proposal has been submitted to the United States government for approval.

Under terms of the agreement, North American would supply technical personnel, engineering and production data on the Sabre Jet and Mitsubishi would manufacture only non-structural spare parts. Under separate contract, the plant would repair and overhaul F-86's for the Far East Air Force.
