L. A. County Medical Assn. to Continue Crash Polio Programs

The Los Angeles County Medical Assn. moved into the third month of its crash program in polio and tetanus this week with inoculations for all agencies reaching the 2½ million mark.

Even at this point, according to association officials, hundreds of calls have come into the LACMA switchboard asking how long the program will continue, and requesting details on inoculation schedules and the procedures of the program.

* * *

IN REPLY, Dr. Joseph P. O'Connor, Association president, answered, "The Medical Assn.'s crash program will last as long as necessary to thwart both polio and tetanus in the Los Angeles area, and to maintain a level of immunity from both diseases which will assure us that this year's emergency does not recur."

Dr. O'Connor outlined the program and the schedules with the following statement.

* * *

"WHEN A group of sufficient size expresses interest in the crash program, a series of inoculations is scheduled. These dates are arranged in such a manner as to afford inoculation for the complete series of three polio shots and two tetanus shots in the initial phase. The schedule is arranged as follows:

First date: First polio shot and first tetanus shot.

Second date: (Two weeks after the first) Second polio shot.

Third date (Four weeks after the second.) Third polio shot and second tetanus shot.

* * *

"THE THIRD tetanus shot will be given seven months to one year after the second. Boosters each year for polio and every four or five years for tetanus are a must — and available at each clinic."

The Los Angeles County Medical Association President continued by stating, "On the scheduled dates the Los Angeles County Medical Assn. will send a staff to the clinic. This staff includes a doctor and one other representative of the Association. A chanrge of one dollar per shot is made to cover costs incurred by the Association.

* * *

"THE NECESSITY of polio and tetanus inoculations can readily be seen in view of the following facts:

1) The incidence of polio has risen fifty per cent this year, compared to last.

2) Polio incidence this year has hit particularly hard in the adult area. Fifty-five per cent of the deaths resulting from polio have been adults.

* * *

3) TETANUS has a more than 60 per cent mortality rate, and annually kills more than 350 people. All deaths in Los Angeles have resulted from insignificant injuries as cuts and scratches and each of these victims had failed to receive immunization.

4) Both diseases are almost entirely preventable by means of a complete basic series of three inoculations plus boosters at appropriate times." Dr. O'Connor emphasized." Medical doctors are particularly saddened by deaths that can be so easily prevented. It's such an unnecessary waste of life."

Dr. O'Connor concluded by pointed out that information concerning clinics or inoculations can be readily obtained by calling HUbbard 3-1581, Los Angeles County Medical Assn., Polio and Tetanus Scheduling Office.

Gig Young to Open In New Broadway Show

Gig Young, who attained considerable prominence on Broadway a few years ago in "Oh, men - Oh Women," opens Nov. 16 in another New York stage play, "Under the Yum Yum Tree," in which he will star at Henry Miller's Theatre on Broadway.

BMHS Students To Participate In Rites Today

A group of 70 boys and girls from Bishop Montgomery High School will offer the solemn chanting of Vespers, a liturgical prayer of the Roman Catholic Church, in honor of the Mother of God at St. John's Military Academy today in ceremonies presided over by Bishop Alden J. Bell.

Present will be hundreds of devout youth, eager to show their respect and devotion to God, and to receive commendation for their generous efforts to support the missions of the world,, providing means whereby the underprivileged can be clothed, fed, and taught the truths of God, according to school officials.

Bishop Montgomery High School, on Torrance Blvd., near the city's western limits, serves Torrance, the Harbor, and South Bay areas. Present enrollment is about 1100.
