Your STAKE IN A Very Important Program

Your America needs your help now in a great venture to Benefit the Nation, the State of California, your home community, You and your family.

INDUSTRY LEADERS JOIN 'SHARE IN FREEDOM' CAMPAIGN

Secretary of the Treasury Henry H. Fowler, center, is joined by U.S. Savings Bonds volunteer leaders Charles B. Thornton, left, and Daniel J. Haughton in calling for "payroll patriots." Haughton, board chairman of Lockheed Aircraft Corp., is national chairman of the U.S. Industrial Payroll Savings Committee. Thornton, board chairman of Litton Industries, is counterpart for Southern California.

The President calls urgently for the greatest enrollment of payroll patriots since World War II.

These volunteers are needed to help fund the price of liberty, to swell vastly the \$51 billion outstanding in Shares in America as a means of the most effective management of the public debt, to restrain the forces of inflation, to build their own economic security.

The President says this will be done through enrolling 2,460,000 new savers nationally, selling \$5½ billion in United States Savings Bonds — 136,000 new savers in Southern California and \$245 million in sales.

This urgent appeal promptly brought Secretary of the Treasury Henry H. Fowler the commitment of America's top industry and business leaders, such as Daniel J. Haughton, Chairman of the Board of Lockheed Aircraft Corporation, as national chairman of the U. S. Industrial Payroll Savings Committee, and Chairman of the Board of Litton Industries Charles B. Thornton, his counterpart for Southern California.

And it brought millions of sign-ups in factories, shops and stores as payroll patriots—and members of the Armed Services In Vietnam, who buy Savings Bonds where they work.

Join them by purchasing United States Savings Bonds now. When you do, you add to the \$51 billion outstanding in these Shares in America, more than \$250 per person in your home community as a stake in economic security for you and your family.
