

# County Continues Storm Drain Work

JULY 19, 1967

PRESS-HERALD C-11

The Board of Supervisors has received a quarterly report on the status of the 1958 and 1964 storm drain bond issue programs, according to Supervisor Burton W. Chace.

County Flood Control District Chief Engineer Walter J. Wood prepared the run-down in accordance with a board order adopted last Jan. 17.

The report indicates that plans for 99 per cent of the regular projects included in the 1958 program have been received for processing. Of these, 178 projects out of a total of 184 or 97 per cent have been advertised for bids or constructed.

## Computer Activated By Utility

More detailed and individual classification of customers is the result of new data processing equipment now in use in the Southern California Gas Co.'s Southwest Division, S. W. Lynch, division manager, announced today.

Lynch explained that new IBM 360 Model 20 card system equipment has been put into operation as part of the investor-owned utility's program for maintaining the most efficient service possible for its customers.

In addition, then new system provides for a reduction in equipment rental costs to the gas company.

The new Model 20 equipment replaces an IBM 1401 card system. The changeover in the gas company's Southwest Division is part of the utility's system-wide plans for converting to the new equipment.

The gas company's Southwest Division includes Inglewood, Gardena, Torrance, Redondo, Palos Verdes, Lomita, Lawndale, Hawthorne, Hermosa Beach, Manhattan Beach and other local communities.

## Free Film Scheduled For Friday

A young boy's battle with a giant alligator is interwoven with the drama of a search for petroleum deposits in this week's film, "The Louisiana Story," to be shown free of charge at the Joslyn Center Friday at 7:30 p.m.

This week's screening, filmed in the Louisiana bayou country, is the third of a summer film series offered by the Torrance Recreation Department.

Each of the films has been selected to provide good family entertainment while covering such topics as travel, adventure, science and education.

The Joslyn Recreation Center is located at 3335 Torrance Blvd.

these drains have been received, 48 per cent have been advertised or constructed, and 38 per cent of the funds have been spent or committed.

Chace said a review of the over-all status of the 1958 program — both regular and supplemental jobs — reveals that plans for 91 per cent have been turned in for processing.

Another 85 per cent, representing 206 projects out of the 242 called for, have been advertised or built.

SOME \$158 MILLION of the total construction fund allotment of \$179,000,000 has been spent or committed. Plans for 53 per cent of the projects included in the 1964 program have been received

by district engineers for processing, Chace added. Of these, 32 per cent have been constructed or advertised for bids.

In construction funds, \$34 million out of a total allocation of \$196 million have been spent or committed to various projects. This represents a \$9 million increase since the April report and

should rise rapidly as larger drainage projects are received, reviewed, and sent to bid.

Plans for the projects under both programs are prepared by the cities in which they are to be located by the County Engineer for unincorporated areas, Chace said.

Construction, operation and maintenance is a Flood Control District responsibility.

Control District responsibility.

Notice how many people are reaching for SAFEWAY Meats . . . THE SURE WAY TO TOP QUALITY

The combination makes the Safeway money-back guarantee on every cut of meat we sell:

- USDA CHOICE BEEF AND LAMB. Every steak, chop and roast from beef or lamb awarded the USDA grade by impartial government graders.
- EXPERT MEAT AGING. Our beef and lamb are held in vast air-conditioned aging rooms the exact time each cut requires to develop peak tenderness and flavor.
- CAREFUL MEAT TRIMMING. Our method of preparing meat gives you more eating meat on the table because excess fat and bone are trimmed off before the meat is weighed.
