**A BIG DEAL...** Bill Barney (right) questions Harry Brock, a junkman turned businessman, about an upcoming deal during a scene from "Born Yesterday" which will be presented Friday and Saturday in the El Camino College Campus Theater.

### Six-Day Service Restored

Parcel post deliveries in the Torrance delivery district have been expanded from five to six days each week, according to Postmaster Carl L. Backlund. The expanded service, which became effective last Monday, is in line with recent directives from Washington to restore six-day delivery service. The service was cut back in May, 1964, as an economy move. Recent Congressional action, however, provided \$8.5 million to restore the service, Backlund said.

### Comedy Hit On Stage At College

"Born Yesterday" will be presented Friday and Saturday at 8:30 p.m. in the El Camino College Campus Theater. The play is being produced as part of the summer drama workshop classes under the supervision of theater arts instructor Burnett Ferguson. Student director is Henry Salomon. Playing the role of Billie, the dumb blonde who suddenly discovers education, is Marsha Glassman. Harry Brock, her junk-dealer friend, is played by Bill Baraction, however, provided by Ronald Scarlata plays the Harry, the crusading newspaperman.

**WHAT'S DOING?**

What do you do when your phone gets out of whack on a Saturday night? This can certainly be a serious problem—particularly if someone in your family is ill or you are expecting an important call. Should this happen to you, we're always there to help. Just call us at Repair Service. You'll find the number listed in the front pages of your telephone book. Whether it's Saturday night or a holiday, if it's an emergency to you, it's an emergency to us. If there's trouble on the line, we may be able to fix it without sending a repairman out. But if necessary, he'll be out to get your phone working again. If immediate repairs are not required, we'll fix the phone on our next regular workday. And of course, we never charge you for this service.

The little boy asked the Operator for the number of a little girl, Jane Jones. The Operator asked if he knew the name of Jane's mother. He replied, "Sure, it's Mrs. Jones."

Will you help Smokey the Bear this summer? During the dry months ahead be extra careful with campfires, matches, and smoking. As Smokey says: "Only you can prevent forest fires."

Thirty-nine seconds. That's all it takes for a Pacific Telephone information operator in the South Bay to answer a call, locate the proper information and give it to a customer. But 39 seconds for the average call is not good enough for Pacific and the company has begun a program to speed up and improve the service given by information operators in San Pedro, Torrance, Wilmington and Lomita, according to Mrs. Jewell Voss, manager of the company's Torrance information office. She said the most important thing a customer can do is first give the name of the community in which a person or firm is located. "If a caller gives the community first, the operator can open the right phone book immediately," she said. "Most people give the community last and the operator has to wait until she knows where a person lives before she can begin hunting for the right telephone number." Mrs. Voss also suggested that callers have a pencil handy to write down the number they are dialing for. "All of our operators have special lists of frequently requested numbers," she said, "and it's a good idea for customers to keep their own list of frequently used numbers in a handy place along with their telephone directory."
