Message Unit Service—

Under Message Unit Service each local call from a message rate or coin box extended telephone is charged for as one message unit. No message unit charge applies before charges are made for additional message units.

Message units for calls to the exchanges and telephone number prefixes listed, as well as for local calls, are included in the monthly message unit allowance which applies before charges are made for additional message units.

Bills for message rate extended service show the number of message units used and the total charge of 3½c per unit for those units in excess of the monthly message unit allowance. Bills for flat rate extended service show the number of message units used and the total charge at 3½c per unit. For coin box extended service, message units are at the rate of 5c per unit and apply against the minimum charge.

Person-to-Person Service—

Person-to-Person Service is available at toll rates (not Message Unit Service rates) applicable thereto over routes having Station-to-Station message unit rates of 2 message units or more.

Rates to More Distant Points—
