A PROPHET IN TORRANCE

Coming Events Foreshadowed Some years since a symposium of eminent lecturers was held upon the theme of the "Limit of Toleration," referring to views which may be held upon the greater subjects which might engross public thought. But the lecturers probably did not refer to the toleration which might be extended the publications of the county, the weekly and daily press included. But a couple of months past one of the higher priced popular magazines carried an article, under signature, which more than intimated that storms, lightning, hail and earthquakes were caused by the mental status of the inhabitants of a particular offending country. This statement caused no public discussion nor outcry. It was accepted by the public with the utmost equanimity. And hundreds of those particular maga-zines are in the households; thousands of them in this county.

It seems a high-priced popular magazine enjoys the utmost tolera-The question arises: Has a weekly paper any rights whatever to speak of anything but cows, horses, chickens and goats? Here goes!

Torrance has a prophet. And here are a few of his prophecies. First, the name of the prophet is Mr. J. J. Boatman and he formally reduced the prophecies to writing and had them acknowledged before a notary and under notarial seal. But he was accused of being in corrupt collusion with the notaries. As a final resort' Mr. Boatman now writes his prophecies upon postal cards, mailing one of each to himself and thus securing the postomee stamp and date upon the card. He has over 1000 of these cards to date, some of which were Three desperate drives, first against returned to him by his request after England, second against Italy, third the prophecy had come to pass.

HURRAH FOR 1921

The committees having the Fiesta in charge reported everything satis factory in winding up the affairs of the annual Fiesta but recently closed. The Fiesta demonstrated that the gala days furnished the best possible advertisement of Torrance, its people and its industries, as well as the productions of the soil, which latter as an exhibit also attracted great attention.

The Fiesta for 1921 will be ten times longer than the one just passed and everyone is looking forward enthusiastically to the Greater Fiesta of 1921.
