schools are urged to go to the polls and cast their votes for this very necessary measure. Even Torrance school, where the capacity of the building was doubled this year, is already crowded for room. With even a reasonable increase next year, this school will need more room. It is easily evident that those schools which received no additions after the other bond issu, are desperately in need of relief.

T. camp in the sixth when the cohorts of John D. rallied to his standard and smote the mighty Sweet for two beautiful doubles, which, coupled with a free pass to the first sack, resulted in two scores. Throughout the rest of the game Sweet kept the hits well scattered, and it is well he did, for inspite of errorless ball and superb support, the U. T. boys felt compelled to bring into play every bit of base-ball they knew, because their opponents were out to win and play
