NEW BUILDING FOR FIRST M. E. CHURCH

Plans have been drawn for the new home of the First M. E. church, to be located at the corner of El Prado and Manual avenues. At this time only the first unit of a basement containing a dining room with a platform and a capacity for two hundred and fitty persons, a modern kitchen with warming ovens, a boy's club room, storerooms, and shower baths. The main floor will consist of community hall, with a capacity for 350 persons, a well equipped platform, offices, ladies parlor and class rooms. There will be a balcony with rooms. Two other features will be a well equipped out door gymnasium, and a fine swimming pool. The approximate cost will be \$16,000, of which amount three-fourth is already pledged or in sight. It is quite certain that work will be begun before the summer is over. A community program will be issued in the near future, which program will be for the benefit of the entire community, with no attempt at proselyting.

Mrs. Ella B. Miller was the guest Tuesday of her mother, Mrs. N. R. Wright, of Glendale.

Andrew Bruce, of San Diego, has been the guest for several days of Mr. and Mrs. John G. Wilson, of Narbonne avenue.

PERPETUAL YOUTH AT LAST —MAYBE.

And now the great city of Paris sends us word that everyone may live to be 150 years old. The encouraging information was imparted to the French Geographical Society by Drs. Javorski and Vachet, noted French scientists.

These gentlemenexplain that their system consists of muscular injection of new cells for old ones. Presumably if the worn out cells are caught in time—that is, before the tissues break down—we have the secret of perpetual youth, in appearance, at least. Wonderful! In these days of the wireless telephone it is dangerous to laugh at anything, yet there is a pretty fancy in the possibility of a mail order service to permit the withering unfortunates in remote sections to "Buy Our Guaranteed Life Cells, with Patent Injectors" at so much per throw. \$100 for one more year of life.

Paris has sent to us some wonderful medical fakers in the past—men and women who have posed as the cure alls of everything from tuberculosis to the plp. It might be well to follow Sigsbee's advice and suspend judgment" on this latest Hans Anderson news report.

"THE ANGEL WITH THE FROZEN HEART."

I N 1793, with the French revolution at its height, a fifteen-year-old girl was married to a banker almost fifty and all Paris smirked. But Paris would have been ashamed if it had known, as historians believe, that Jacques Recamier was the father of his bride, Jeanne, and married her so

Jacques Recamer was the factor of this bride, Jeanne, and married her so that she might have his powerful protection. Throughout his life he kept a paternal attitude toward her.

Mme. Recamier undoubtedly was one of the most beautiful women who ever graced Paris. An admirer said that she had a "complexion that is a bowl of milk wherein float rose leaves." Another tells us of her "orange-tinted eyes" and all agreed that she was "the angel with the frozen heart."

From the welter of the revolution and the reign of terror Napoleon emerged. When he had made himself secure he looked about at the beautiful women of Paris and his fancy fell on Mme. Recamier. He made lazy love to her. But she refused him. Napoleon, in a spiteful humor, ruined her husband and banished her. Mr. and Mrs. Charles Mueller and Mr. and Mrs. J. T. Wise will leave Saturday morning for San Francisco. They will stay with friends in Porterville Saturday night, and expect to reach San Francisco Sunday evening. They will attend the Imperial Ceremonials of the Shriners, at which Potentates of the entire Masonic world will be in attendance. The steamer Massaamia has been chartered and members of Al Malacka Shrine will go on a three weeks' cruise to Honolulu. It is expected that the number of Shriners in attendance at the ceremonials will exceed 500,000, and San Francisco will put on the biggest electrical display the world has ever seen. ruined her husband and banished her. Then the two left for Italy. There Prince Augustus of Prussia fell in love with the banker's wife and wanted her to become his princess. Again she declined. Lucien Napoleon, broth her of the emperor, lost his head over her. After him came the gallant Gen-eral Bernadotte, and left disappoint ed. Benjamin Constant, the states

Last Sunday the members of the Sales Organization celebrated the close of the convertible Note Campaign, by an all-day cruise on the Launch Agram.

Everyone had a most enjoyable day. Members of the party were: Miss Maria McLain, Miss Koehler, Miss Halley, Miss Jo Morgan, Mrs. Seery, Mrs. Benoist, Messrs. Putnam, George Routner, Tom Griffin, Al Dutton, J. J. Connoly, George R. Taylor, Mr. and Mrs. Gordon Bettles and Mr. and Mrs. A. E. Bettles. eral Bernadorte, and reft disappointed.

ed. Benjamin Constant, the statesman, loved her, and she made him an instrument of revenge against Napoleon, but granted Constant nothing. General Moreau was next, then Murat, king of Naples. Mme. Recamier invelgled him into conspiracies against his master, who fell not long afterward. And the Recamiers went back to Paris, leaving Murat empty handed. Mme. Recamier's salon became the most brilliant center of the restoration. Recamier died and a thousand suitors besieged his beautiful widow. When she was more than fifty she met the only man to whom her heart was not indifferent, Chateaubriand, the author, a cranky, saddened man. But even theirs was a platonic love, for it seemed that her heart could not be warmed and won. She tended him

COSMIS MESSAGES Astrominers kindly turn tour telescopes in the month of September to a point in the heavens directly over head of Pickering, L. A., you will find a phenomena of the universe. A massive constellation of suns; so vast is this immence cluster of suns that neither light nor space is visible in between them. Distance twenty thousand light years (a light year is 186,000 miles per second per year.) I notified astronomers in December 11, 1919, to turn their telescopes N. E., and that they would find a strange star having a bright blue flame projecting out northward; not a comet (a Nova Star.) This prophesy was made 3 months and ten days ahead of Astronomer Durning of England, August 21, 1920. You will read of a phenomenal black mirage which will make its appearance this summer northeast of the city of Imperial, California, showing up in every detail a full view of a city in the east by night. Standard Oil Company's well No. 1, in new west addition of Torrance will be either a 5,000 barrel gusher, or nothing. Russia and Germany, as allies, will war on France and her allies and the whole of France will be taken over by Germany.
