HOLD ANNUAL PICNIC

The employes of the Union Tool Company approach another milestone, when on next Saturday, June 10, each employee with his immediate family, will journey to Brookside Park, to celebrate the annual picnic of this concern.

The picnic given by this concern to their employes in the past have been most enjoyable affairs, bringing together the employes of all departments permitting them to gain a better acquaintance with their fellow workmen, and at the same time offering the youngsters an occasion to enjoy themselves in a clean wholesome manner.

The plans for this year's picnic promises to outshine the efforts of the past year. We judge this after our conversation with the chairmen of the various committees, and regret that we, not being an employee of the company, cannot have the privilege of attending this annual jinx.

The barbecue will be served commencing at eleven o'clock, cuntil everyone is well cared for.

The afternoon will be devoted to ball game, radio concert and daneing.

A handsome prize has been set aside for the winning couple in the prize waltz.

Transportation has been arranged by the Transportation Committee, headed by Mr. Byrnes. Special cares will be spotted, insuring good service at a minimum cost, as special rates have been secured from the Pacific Electric.

"GALA DAY."

June 2, 1922, was "Gala Day" in the Torance School, both High and Elementary. It had been looked forward to and planned for by call 'of us for month past. "Gala Day" itself proved that our energy was not wated.

The festivities began at 1 o'clock p. m. with a parade made up of the whole school. This parade, being the greatest event of the day, was the most planned for. The costumes were all very good, and the time spent on them was certainly worth while.

The Kindergarten led the parade, going out around "Pumphouse Park," as one of the teachers here calls it. Following them came the first second, third, fourth, fifth and sixth grades with their dolls, pets, flowers, and lovely dresses (and suits.)

After the sixth grade came the seventh and eighth, the boys wearing a mixture of suits including "Boy Scouts" and "Brownies," and the girls as flowers, various colors of "Iris," "Rose," "Poppy," and "Snowdrop" being represented.

Last, but not least, came the High School; here was a mixture of costumes; gypsies, fairies, nurses, Japanese ladies, seasons, Indians, Scots, Turkish ladies, and many others.

These, of course, were the girls, Among the boys were. "Robin

GREAT EXCITEMENT IN LOMITA AND TORRANCE

As the time approaches for the Trio Rebekah Minstrel Show, June 16 and 17, there is great excitement in Lomita and Torrance. This minstrel Show will surpass anything yet given in this vicinity.

Sparkling jokes from our six premier end-men and end-ladies. These jokes will be side-splitting, with no moss on them. Splendid choruses and solos from our All-Star Company.

GREAT EXCITEM

to the echo, a clever piece of the coro foot work by either side met with unstinted applause.

It was gratifying to the promoters to see a goodly number from Gardena Redondo and San Pedro In the crowd, this means a lot of high class advertising and a larger attendance as the news is spread. It is thought by some that the time will soon come when some of the sailors from the sub-base will join in with us and not only add zest to the sport but help to fill the house to overflowing.

There is no doubt about the popularity of these entertainments. The big question is what will we do with the crowds in another month? It looks like the American Legion will soon have to build a suitable brick building in a central location and maintain a regular club room, and keep it open day and night. That an undertaking of this nature would more than pay its way is a foregone onclusion.

more than pay its way more than pay conclusion.

While the jazz band was a little late in arriving, they more than made things hum once they got under way. But after all is said and done there is nothing like a brass band to put a crowd in a good humor and we will be expecting the P. E. boys to be on the job next time and lead the way.

The public is more than meeting you half way fellows, lets go from here and make this old town the center of sporting events for the whole harbor district.

OIL TO BURN

All other wells in the immediate vicinity of Torrance are speeding up operations in a keen rivairy to be the next subject in the spotlight.

It is generally admitted that drilling will be started and pushed day and night, on good many leases, now that the cat is out of the bag and there is nothing to be gained by stalling along to acquire more ground. Both the Shell and the Standard are preparing to start operations in Keystone and men of long experience in the oil game predict that this will be a second Santa Fe Springs. TORRANCE CIVIC CENTER
There is being formed at this time, definite plans for a civic center for Torrance. A site to be developed as need arises to care for all our public buildings, thus forstalling the necessity of expensive buying at a future time. At present we very much need a city hall that will include space for a court room, jail and fire department equipment.

Some may say that we should not rush things so much, but if you can read between the lines at all and have watched the tremendous growth of live California towns in the last decade, you will realize that we are already late in startnig. Next year or the year after we will have a thousand other things demaning our attention. And the latest and most approved plans in city building call for careful, brainy thought and then get busy. We must go after the sewer problem and get that settled, and now comes the water problem. We cannot tolerate unjust prices for this most essential necessity and it may be must own and operate a public system. The Pacific Electric Housing Department has spent nearly \$300,000 to date and is contmplating the immediate expenditure of an additional \$100,000 for homes for the employees. Extending a very liberal payment plan, this project is growing into huge proportions. More than \$5 houses having already been erectel and 40 more building contracted for. With such live wire hustling in our midst it behooves us to be up and doing every minute. Let's go! Torrance means business.

AMATEUR MATINEE
Starting with Saturday's performance on June 17, the Torrance Theatre has prepared something good, and a surprise, too, for the children as well as grown-ups, when completed arrangements will see plenty of home talent on the stage offering a fine program. The McVeys are using their wits to keep something new and entertaining at their shows and this idea has already met with a degree of favor. Keep Saturday afternoon, June 17 open for a real afternoon's treat. A month hence from that date a new special program will be arranged, and followed up every month. AMATEUR MATINEE

What about the bootleggers? This subject will be discussed at the Central Evangelical church next Sunday morning. Mr. S. T. Montgomery, Supt. of the Anti-Saloon League for Southern California wil be the speaker and will go into detail in explaining what plans are being formulated for the suppression of the illicit selling of booze. Mr. Montgomery is a very forceful speaker and all who are interested in the cause of good government should be present to hear thiable speaker. The address will be givn at the 10:45 service. The public is invited.
