freshments were served on boats. Like all the rest of the 300, "B. M." reports a fine time and received much benefit from the as-sociations with such fine bunch of men. Sheriff Treager addressed the convention and his remarks were enthusiastically received by the "cops."

Free Advertising Of This Town All Over World

As a bit of free advertising, the magnitude of which can hardly be estimated, came to light this week when literature from the of-fices of E. G. Lewis, promoter of development of the Palos Verdes Estates, arrived here with the tele-gram sent out from this city print-ed on a circular letter. These let-ters are being sent out all over the world and who can say how much good will be derived from having our town placed on the map of the Palos Verdes Estates.

KEYSTONES

KEYSTONES The County Supervisors started grading operations on Carson street Wednesday morning between Nor-mandie and Harbor Blvd. We have not learned just what nature the improvement is to be at this time, but it is certain that the street will be put in first class con-dition pending completions of plans for paving. Mrs. Honors' father is building a neat bungalow on the corner of 216 and Grace street. This will make the second house built on this five acres in the past few months. Mr. J. P. Scoville has returned to his place on North Grace street and is contemplating some added improvements. Mr. Scoville is hustling insurance of all kinds and says there is nothing like hav-plenty of room in and around your home. He tried L. A. for a few months but is of the opinion that keystone is the best place to build a home. Mr. Narcolas' splendid home on

Acystone is the best place to build a home. Mr. Narcolas' splendid home on Harbor Boulevard is nearing com-pletion and will be a land mark for this neighborhood. We antici-pate many more of these substan-tial homes will go up in Keystone this summer.

for this neighborhood. We anticipate many more of these substan-tial homes will go up in Keystone this summer. Mrs. M. R. Galilmore has gone to New York City to spend several monthy visiting here parents. In her absence M. R. is making the dirt fly around the place, getting in a number of improvements. R. w. Woods is another Key-stonite who is in the east on a combined business and pleasure trip. It is a good thing for folks to get away from home occasional-ly. They get a chance for compari-son and they can better appreciate a good place. Itke Keystone when they return. D. A. Foss and daughter will start shortly for a three months' visit for the old home in Maine. Mr. Foss states he hasn't been back for 30 years. We wish him a fine trip, but will wager he will be more than glad to get back on California soil. Last Saturday some 23 young-sters and a few grown-ups, gather-ed at the Woods home to help cele-brate Waldo's 9th birthday. The afternoon was spent in playing old fashioned games. Mrs. Woode proved herself an ideal hostess. Re-freshments, consisting of lemonade. Cake and ice cream were served, and left nothing to be desired so far as the little folks were concerned. M. M. Tenner, who is a driller on the Foint Fermin oil well, had the misfortune to get a bad fall Monday and suffered a fractured arm and severe bruisses. While nothing serious, yet the hurts are very painful and will keep him confined to the house for some time. A. F. Thomas goes to Imperial fonight on a business trip. Tei

confined to the house for some time. A. F. Thomas goes to Imperial tonight on a business trip, re-taraing Sunday evening. Mr. Thom-as thinks the valley is on the eve of tremendous development and is taking over the planting and care of more than 400 acres of vine-yards an dorchards.

Formerly they used to make col-lections of guns, swords, battle ax-es, spears, arrows and other his-toric weapons, but the museum of the future will probably contain specimens of historic base ball bats,
