

TORRANCE WELCOMES SOUTHLAND

Five Days of Sport and
Joyful Festivity In
Beautiful City

The remarkable development of Torrance since its inception in 1912 will not be surprising to those who study the question of city expansion. Its location between Los Angeles and its harbor at San Pedro has brought Torrance within the direct line of development.

Modern in scope and planned by the world's foremost city builder and landscape artist, Frederick Law Olmstead, Torrance is assured of steady growth and great future development.

Dana Bartlett in "The Better City" says: "Torrance is America's first industrial city, where the newest of the new and best of the old unite to form an ideal city."

In the upbuilding of Torrance provision was made not only for the growing industrial needs of Los Angeles, but for the comfort and convenience of homeseekers, expressed in modern houses set in the midst of most attractive surroundings.

No modern city has had its foundation laid under more favorable circumstances than this scientifically planned city of Torrance.

As a rule cities grow up in a haphazard way. Not so has Torrance, for from its very beginning this city had behind it a practical, systematic plan.

Steady Growth.
Ground was broken in 1912. The growth has been rapid and while building operations here, as well as elsewhere, were halted by the great

Los Angeles Puts Industries to Front

The claim that the California Pageant of Progress and Industrial Exposition, to be held in Exposition Park, Los Angeles, August 26 to September 9, will be the greatest display and entertainment of its kind the West has ever known, seems to be borne out by the facts in a nutshell, just compiled by the Los Angeles Chamber of Commerce, under the auspices of which the Exposition will be held:

The grounds cover 35 acres. There are 601 exhibition booths, 10x20 feet.

More than 100 men worked for two months completing the temporary buildings and preparing the grounds.

The articles on exhibit will be valued for more than \$2,000,000.

More than 1,000 kinds of articles will be on display.

The amusement program is a reproduction of the New York Hippodrome Shows, the first time they have been brought to the coast.

More than 2,000 people will participate in the entertainment feature.

Six hundred voices will be heard in one chorus.

Two hundred of New York's most beautiful girls will appear in the Water Carnival.

The Chateau Thierry spectacle will require 400 soldiers to stage; in addition to 20,000 pounds of powder daily for the fire works and cannonading.

Championship auto polo matches between the Pacific coast and British champions will be played daily.

A huge restaurant, hospital, fire department and every convenience for the public have been placed on the grounds.

To view every exhibit and attraction, the visitor will have to walk seven miles—or the distance from the Los Angeles court house to Highland Park.

This is what Los Angeles does to encourage development of industries. Is it any wonder the city grows?

NO PARTY WILL DARE REPEAL

Raymond Robbins, Social Worker

and Economist

Prohibition is one of the oldest subjects of discussion and agitation in American politics. Two-thirds of the states voted dry by popular referendum before the passage of the Prohibition Amendment to the Constitution. More than two-thirds of each House of Congress voted to submit the amendment. Forty-six states have ratified this amendment. New Jersey came in the other day with a ratification delay of over two years. It was supposed to be the wettest territory in the United States. No political party dares to support repeal of the Volstead act much less the amendment. There will be several years of battle to finally break the back of the whisky ring and then the liquor traffic will be as extinct as the dodo.

quarter of 1921 were \$2465.20—an increase of 68 per cent.

Building Permits for the First Quarter of 1922, \$72,000.00

400 live wire members of the Chamber of Commerce are back of this city. Address communications to the Secretary.

Motion pictures of Torrance may be seen at the Chamber of Commerce, Los Angeles and in the Ferry Bldg., San Francisco.

An aggregate fine of \$100 was imposed on five Japs by Judge Hunter last Monday afternoon. The Japanese were arrested by George Taylor for a violation of the fish and game laws.

war, Torrance is today a community whose future is assured.

Torrance is the home of:

The Union Tool Company, representing an investment of \$1,750,000, with a monthly payroll of \$200,000; employing 1100 men; with an output of \$6,000,000 worth of oil well equipment annually.

The Pacific Electric Railway Company Shops, representing an investment of \$1,500,000; monthly payroll of \$115,000; employing 750 men; with an annual output of \$1,000,000 worth of railway equipment.

The Llewellyn Iron Works, another \$1,500,000 plant; with a monthly payroll of \$75,000, employing 500 men; producing \$4,500,000 worth of open-hearth steel and rolling mill bars, steel castings, etc., annually.

The Salm Manufacturing Company.

The Consolidated Lumber Company.

The Torrance Window Glass Company.
