### CHAMBER OF COMMERCE NOTES

The regular meeting of the Torrance chamber of commerce was held Monday evening at 8 o'clock, with President E. Andem presiding. The minutes of the last meeting were read and accepted. Reports of committees were called for, and several responded, the committee out on signs not being present the matter was continued, with a new "sign" committee being appointed, composed of the following: Geo. Proctor, L. F. Bennett and J. Isenstein. They were authorized to get the signs in place at once.

The Auditorium committee reported that arrangements had been made whereby the building will be completed within a very short time, and that the Theatre is leased for a term of five years, tenant to take possession as soon as completed. Also, one of the stores is leased at a good rental.

All were anxious to see the Auditorium completed so as to provide a place of entertainment for all Torrance.

Postmaster Goudier reported that the amount of stamps sold the past month amounted to \$559.39 and \$347.18 stamped envelopes were ordered. This shows a most satisfactory increase over the previous month.

The committee on securing a meeting place recommended that the chamber take the hall in the Steffen building and it was endorsed by a vote of those present. The next meeting will be held in these new quarters.

There being but one more meeting of the chamber this year, in accordance with the by-laws, the officers for the coming year were nominated.

E. X. Andem was nominated for president; P. G. Briney, vice-president; A. H. Bartlett, recording secretary; Postmaster Goudier, corresponding secretary. There being no further nominations the meeting was adjourned, so that the members could attend a meeting in Lomita, where they were informed a meeting was being held in favor of the Japs, but upon arriving there they found that it was a mistake and no such meeting was held. However, the members called at the office of the News Letter and saw a modern printing plant—one that would do credit to a good sized city. The members were taken all through the different departments, saw the typesetting machine being operated on the night shift by a New York City Operator, the Stone Metz Press being operated by an expert pressman and several were shown how the type line eat up the type. George Proctor even found a left-handed "munkey" wrench in the press room, many other discoveries of a similar nature being found, until Editor Roberts called them from labor to refreshment and served printer's "pk."

### SAYS BUSINESS IS FINE

Sam Rappaport of Rappaport's Dry Goods and General Merchandise Store, Torrance, says business is certainly fine with him these days. He says Torrance is generally good the year round but that at this particular time he has no time to ever read about gloomy reports in business in other sections of the country.

### OLD CASINGS FOR RESOLES

Automobile tires are being used by thrifty and economical owners of automobiles to half-sole shoes for the family, and those who have already tried this method and they save many dollars and that the wear is more satisfactory than a leather sole.

And though authority is a stubborn bear, yet he is oft led by the nose with gold.

Virtue itself escapes not calumnious strokes.

"Smiling Ralph" Mulford drove a new Paige 6-66 touring car up the cog railroad of Pike's Peak, in 20m. 40s., Saturday.
