JUDGMENT BY OWN PEOPLE

There is nothing so low and degrading, and which causes your friends and acquaintances to pass judgment, censure and desert you, as to engage in a street fight. Neither right nor wrong gain anything, when human blood is spilled.

Riley Quinton, a navy officer of the Sub Base, San Pedro, is moving a house from San Pedro onto his property, recently purchased on W. Weston. His father will also build a cottage on the same property.

Contractor Hatfield is remodeling R. Geist's home on Redondo Blvd. When this job is completed an addition will be built on Felix Madling's house in W. Miller street. A large basement will also be put in by Mr. Hatfield.

MEN—Order That Suit Now! You will get it in time for Easter wear!

And Once

again the question:

WHY WEAR

Ready - Mades ?

—Did you ever stop to think that the average read-made suit is handled and tried on by from 50 to 100 men before it is finally purchased?

—Insanitary? May be not.

—But wouldn't you rather have your new suit or overcoat actually new when you get it—delivered to you fresh and clean, direct from the maker's tailor shops?

—A ready-made suit isn't made with any particular man in mind. It is any man's property who will fit himself into it and pay the price.

—But your tailored-to-order suit is made expressly for you; and you alone. It is your personal impress—the imprint of your taste and body lines expressed in cloth; as personal to you as your signature or thumb print.

—Don't you want your new suit to be truly yours; in its inception, its style, fit and individuality?

—Why not? It costs no more—if you order A Royal Tailored Suit.

gallon cans 2.29

FLOUR—Although eastern mills have made appreciable advances in their flour, there has been no change here on local family flours as the result of higher wheat. This is due to the fact that the climb of wheat was halted and then dropped off again so that the situation as far as localmills are concerned is slightly easier. And it is declared that there will be no change in flour quotations unless wheat makes a further advance. Baker's flour has been advanced in some quarters. This is due to the fact that prices were reduced when grain declined weeks ago.
