## YOUR EYES

Few people consciously neglect their eyes, but there are thousands whose eyes are no longer up to maximum efficiency, simply because of a neglect they do not realize.

Prescription glasses to relieve eye-strain, glasses to bring reading and sewing matter to a closer focus. Sir William Crookes glass, which cuts out all harmful ultra-violet and actinic (heat) rays found in intense sunlight, molten iron and glass, etc., without appreciably altering colors. These are my specialties.
