## SPRING--TIME IS HERE

And the Mountains and Canyons are calling you.

It is wild-flower time in the beautiful hills. The streams are especially alluring, and the pine trees sigh with the voice of contentment.

Get one of our "Hiking" folders. learn the paths of this Arcady of ours and plan week-end visits to Nature's play ground.

This railway will convey you to the entrances of "Hiker's-land."

### TELL US ABOUT IT

It's big news in New York City when J. P. Morgan returns from a European trip, and the papers devote column after column to it. But it isn't of as much interest to you as it is to read in your home paper that a former resident of the town is back here on a visit, or that you are preparing to pay a visit to someone in another section of the country. Home news holds first place in this community, and always will. That is why we want to impress upon you the necessity of helping to gather that home news that your home paper may lay it before its readers. We want every personal item we can get. We want to know about all the visiting that is going on in this community, for every visit is of interest to someone besides the party making it. It takes but a second or two of your time to jot it down or to keep it in mind and pass it to someone from this office when you meet them on the street. It may appear to be a small item in your estimation, and yet it may interest some far-away reader more than any other item in the paper. Remember this, and remember that as you help your home paper so is it going to help you by helping the whole community in which you live.

Try a Want Ad in your home paper.

## PATTON IS A FAVORITE

Protege of Rachmaninoff Returns to Western Chautauquas This Year.

For the last two seasons Lowell Patton, the brilliant pianist, has been little less than a sensation on Ellison-White Chautauqua tours. He is one of the younger generation of artists who is rapidly earning just recognition

for his exceptional artistry. He is a student of the great Rachmaninoff and was known in New York as the protege of the famous Russian. In addition to rare musical talent he possesses a remarkable personality. He likes his audiences and they all like him—immensely. There is probably no more popular pianist in the West today.

So Says V. I. Shepherd in His Lecture on Right Thinking.

"We recognize the importance of symmetry in architecture, of harmony in the arrangement of our offices and homes. Do we realize as keenly the necessity for symmetry in the unseen architecture of our minds and of harmony in the nature and arrangement

of our thoughts?" This question V. I. Shepherd asks in his Chautauqua lecture on "The House We Live In." His subject is a big one and all-important. He applies it to the everyday events of our lives and draws forth many conclusions that are new, interesting and extremely vital.
