WORMS will take the Try out of Poultry if not controlled. This can be done through the work of our BARNES' WORM EMULSION. It is not a medicine, but a very nutritious combination that promotes the destruction of the WORMS by assimilating them. It does not stop the hens from laying, and becomes a source of Profit instead of an expense. Ask for Booklet.

Mrs. E. Talkington and children of Wilmington were guests of Mrs. Talkington's mother, Mrs. Ella B. Miller, of Oak street, Friday.

Mrs. J. Wilkinson and son George, of Orange street, left Monday to spend a week with friends at Ocean Park.

### LOMITA NEWS ITEMS

G. G. Wharton and son of Long Beach and Riverside were Lomita visitors Saturday, and are very much taken with the future of Lomita. They may decide to locate here in business.

Mrs. Thos. Willson and children were guests of her mother in Los Angeles last Friday.

Mr. and Mrs. E. E. Miller of Oak street were Huntington Beach visitors Monday, and were dinner guests of Mr. and Mrs. R. Aljose of Long Beach, Monday evening.

Dr. J. S. Lancaster announces that he will be in his offices in the First National Bank Building every evening until 7:00 o'clock, except Saturdays and Sundays.—Advertisement.

Mr. and Mrs. Maddox of Eshleman street have with them Mr. Wiley, Mrs. Maddox's brother, who has recently returned from a trip up north.

Mr. Stotkowitz of Poppy street has left for the Philippine Islands. He is in the naval service and expects to be stationed there two years. His family will remain in Lomita.

Miss Ludine Wait and her fiancé were guests of her parents, Mr. and Mrs. John Waite, of Highland avenue, Thursday.

The Boy Scouts of Lomita, accompanied by Alex McPhail and E. Brumpton, patronized the plunge at Redondo Beach last Thursday evening.

Mrs. P. L. Stratton of Oak street who is visiting her parents at Sandpaw, Nevada, is expected home the end of this week.

Mrs. Anna Brown and children of 257th street went to San Pedro Saturday and saw Wallace Reed in "Too Much Speed."

Dr. J. S. Lancaster announces that he will be in his offices in the First National Bank Building every evening until 7:00 o'clock, except Saturdays and Sundays.—Advertisement.

Mr. and Mrs. Cyress Mathers of Oak street, who are on an extended camping trip through the north and Canada, are expected home in three weeks. They are now at Spokane, Washington.

### 97 PER CENT INCREASE IN THE STATE'S ACREAGE IN 11 YEARS

Alfalfa acreage in California for 1920 has been placed at 954,000 acres by H. M. Butterfield, Supervisor of Agricultural Correspondence Instruction at the University of California. This is an increase of 97 per cent over the figures given in the 1909 census. Over two-thirds of the State's acreage is to be found in Tulare, Merced, Imperial, Kern, Stanislaus, Siskiyou, San Joaquin, Yolo and Inyo Counties. Tulare County alone possesses one-tenth of the total acreage.

Interest in alfalfa culture is also manifested in the enrollments received in the course offered by the University of California in alfalfa culture, according to Butterfield. During the past five years 1743 students have enrolled in this course alone.

Butterfield bases his figures of acreage upon reports returned by county assessors.

### LONG LIFE DUE TO FREQUENT OILING

Trucks, taxicabs and passenger busses appear to have a longer life than the ordinary passenger cars operated by private owners, and yet there is no difference in the quality of their construction. Many instances of passenger stages running 200,000 and even 300,000 miles are recorded, and there are many trucks operating on the roads every day that are from eight to ten years old and that have carried big loads for 100,000 miles.

This difference in their long service, as compared with the privately-operated touring car or roadster, is ascribed to the better care and attention that the commercial vehicles receive. Many of the trucks belong to fleets and after the day's work they go into their service station, where they are carefully inspected and thoroughly oiled and greased. The same methods are used by the taxicab and passenger stage companies, but the private driver oils when he has a spare hour or only after a squeak develops or a rattle indicates excessive wear of some spring shackle bolt.

Authorities claim that more cars go to the junk man because they lack lubrication than for any other one cause, and that if a car is properly lubricated at all times there is practically no wear-out to the mechanism.

### THE LINCOLN MEMORIAL

THOSE who have visited foreign lands say that no other similar structure compares favorably, in either size, beauty or location, with the great, simple and admirably-situated monument erected by the people of America, in the capital of the nation, as a fitting tribute to the memory of the kindness and the greatness of our Lincoln.

Near the White House and the Washington Monument, and between the Capitol building and the National cemetery, this memorial is destined to become one of the most-visited of all the public buildings of the world.

The building is 202 feet long, 132 feet wide and surrounded by a row of marble columns, several feet in diameter at the base and 44 feet high.

In the center of the interior is a colossal statue of Lincoln, in a seated position. Including the base, it is 30 feet high. It weighs 175 tons. It took twenty marble cutters eighteen months to carve this statue.

In each of the side walls are set monumental bronze tablets—one of Lincoln's famous Gettysburg address, the other of his masterful second inaugural address, while between these and the statue is a row of 36 columns, representing the states which existed when Lincoln died; on the walls above are 48 memorial wreaths, supported by eagles, representative of the states of today. At either end is a massive painting—12 feet high and 60 feet long.
