HOME OF WASHINGTON On the peaceful and picturesque shore of the River Potomac, some sixteen miles south of our national capital, stands Mount Vernom—the home of the Father of His Country. was so named in honor of Admiral Vernon of the British navy and it is to the efforts of the Mount Ver-non Ladies' association of the Union that the citizens of America are in-debted for the preservation of this national shrine

Occupying a site of great charm, commanding a sweeping view of broad river and pleasing landscape, is this grand old mansion—to which the young officer came to live shortly after his marriage and to which he retired from the presidency, to spend his days in a manner befitting one of his rank, means and time, and where he died in 1799. in 1799.

The structure was built in 1743 and contains many of the original furnishings and relics of the family. Clustered about it are the barn, coach house, spinning house, meaf house, ice house, wash house, kitchen and other outbuildings. Nearby is a remarkable old-fashioned garden, with quaint. oddly-designed spaces set off by box hedges, said to be 150 years old. In this garden is a coffee tree said to have been planted in 1824 by Gandral have been planted in 1824 by General Lafayette and cuttings from a willow tree which it is claimed were brought from the grave of the great Napoleo at St. Helena.

Enclosed in two marble sarcophagi in a small and simple structure within the grounds, rest the remains of Gen-eral George Washington and his con-sort Martha.

The trouble with the man who is always hollering for a square deal is that he always wants to act as an umpire in the matter. Hot air isn't business. The fel-
