### EVEN IF YOU COULD "COAST" EVERYWHERE IN THE OLD "BUS"

### IT WOULD COST YOU MORE THAN PACIFIC ELECTRIC FARES

The Gas you burn is only a small item in your total cost of operation. Add to that the cost of oil, rubber, repairs and depreciation in the value of the machine, and see "where you are getting off."

The Government says it is costing you from 9c to 14c per mile.

You can ride the Pacific Electric way for 3c per mile for the occasional journey and for about 1 1/2c per mile for the frequent (commutation) trips.

"CAN YOU BEAT IT?"  
YOU CAN NOT!

Ask any Pacific Electric Agent for the Commutation Fare on tickets best adapted to your travel. He will show you the true way to travel economy, and you do not carry the accident risk.
