L. Anderson of Miller street underwent an operation for gallstones at a Los Angeles hospital Tuesday. Mr. Anderson has been in ill health for over two years.

LOMITA CHURCH NOTES

"Things Unseen" was the subject of the morning, using the text: "The things which are seen are temporal, but the things which are not seen are eternal." The log cabin in which Abraham Lincoln was born was barren of many comforts, but we are sure that the little child was loved by the mother who was so soon to leave her son. She endured as seeing Him who is invisible.

The equipment of a school in the way of buildings, blackboards, maps, library, pictures and playgrounds does not make the school. The teacher makes the school.

The real work of the church is not to provide a place of comfortable entertainment for congenial spirits. The church is not a club. It may furnish fine music, but it is not a philharmonic society. The work of the church is to bring God into the lives of men and women and to present the salvation offered in Jesus Christ our Lord. The home, the school and the church have the God-given task of keeping Christian ideals before the youth of our land. Parents, teachers and Christian workers are blind if they are without the vision of spiritual things.

Mrs. Willacy sang very impressively the solo, "I Am Praying For You."

In the evening Rev. F. M. Stead, a missionary from Persia, spoke to a large congregation, telling them of his own experiences as a missionary there for almost twenty years and of the remarkable conversions and changed lives he had witnessed in that far away land.

Saturday afternoon and evening, December 3, the Ladies' Aid Society will hold a bazaar in the hall. From 5 p. m. on a dinner will be served at 50 cents a plate.

ARTIFICIALLY DRIED FRUIT

Recent experiments in dehydrating various kinds of fruit at the Agricultural Experiment Station of the University of California seem to promise an increased outlet for California fruit crops, according to a progress report on the "Dehydration of Fruits" just published by the College of Agriculture at Berkeley.

A summary of methods recommended for the dehydration of various fruits as given in Bulletin 330 will satisfy a widespread interest in the subject of dehydration. The investigations recorded were made possible by funds appropriated for deciduous fruit investigation by the state legislature of 1919.

Mr. and Mrs. Fred Jones and daughter, Katie, entertained a party of friends from Santa Ana Thanksgiving. They were Mr. and Mrs. H. H. Gardner and Chas. Seudder and Raymond Sinclair.
