

TORRANCE MEN AND WOMEN!

THIS IS OUR BIG OPPORTUNITY!

Not one city in California is financially as well off as Torrance.

Almost every city is bonded close to 15 per cent of its total assessed valuation, which is the limit any city may bond.

Now consider these figures, please:

The present bonded indebtedness of Torrance is \$54,000—which is now being retired under the 98-cent tax rate.

If the three proposed bond issues pass the bonded indebtedness of Torrance will be \$29,000.

With an assessed valuation of \$5,943,130, Torrance may bond up to \$891,469.50—15 per cent of the assessed valuation.

Assume that the three bond issues carry. The difference between the then bonded indebtedness of the city and the legal limit will be the huge amount of \$562,469.50.

The amount Torrance will still be under its limit of indebtedness will then be ALMOST TWICE AS MUCH AS THE ACTUAL INDEBTEDNESS.

Next year the assessed valuation of the city will be larger—due to new buildings and other improvements.

Think of it! If we pass ALL THREE bond issues we will be bonded for only a little more than ONE-THIRD of the limit. And no other improvements are pressing, no other bond issues in the offing.

Streets all paved, streets all lighted, a main highway brought into the city, a municipally owned water system—and only bonded to the extent of ONE-THIRD of the allowance.

Men and women of Torrance. Never before have you been asked to vote any large amount for such important public improvements. If the indebtedness of the city were close to the limit, it might be less advisable to vote more bonds.

But practically speaking, the indebtedness of the city is now mighty small—only \$54,000 when close to \$900,000 is allowable.

Torrance can AFFORD the proposed improvements.

Torrance NEEDS the proposed improvements.

With your sanction TORRANCE WILL HAVE THE PROPOSED IMPROVEMENTS.

Every agency that has the welfare of this city at heart has heartily endorsed the three bond issues.

They are NEEDED. We can AFFORD

them. Let's go to the polls Monday and Tuesday and strike a blow for the progress and prosperity of this beautiful city.

Let's show the rest of California that here is a community whose vision extends far into the future, the business sagacity of which is acute.

Let's strike a blow at the obstructionists who seek for purely political purposes to impede Progress.

With those three bond issues passed and the improvements in, Men and Women of Torrance, this city will find a place in the white, life-giving light of Prosperity that will bring a glow to the hearts of all who voted "Yes."

The Dominguez Land Company, on its vacant land, will pay about one-third of the taxes made necessary by the bonds. Industries will pay about two-thirds of the balance. That makes it easy for the small property holder.

Where would the city of Los Angeles be if the people had not borrowed money for public improvements? VOTE YES Monday and Tuesday.

Let's not be fogged by the issue. The elections on Monday and Tuesday are on BOND issues, not on personalities. Politics should not enter to obstruct Progress. Turn a deaf ear to the politically ambitious who seek to check prosperity for personal desire.
