SMALL CARS

ARE GAINING WITH PUBLIC

Looming large as one of the im-  
portant factors contributing to the  
improvement of traffic conditions, not  
only in metropolitan centers but on  
main traveled highways where con-  
gestion develops, particularly on Sun-  
days and holidays, is the increasing  
tendency toward the use of the small,  
light car.

Personal convenience, the element  
which enters strongly into the lives  
of all of us, appears as the principal  
incentive back of the growing swing  
of sentiment toward the more com-  
pact motor car unit.

The public, quick to respond to  
things which insure further comfort  
and safety in motoring, has been ob-  
servant of the advantages the small  
car has in the traffic line, its ability  
to stop quickly, the ease with which  
it gets in and out of parking space,  
and its general flexibility.

The response is apparent in the  
constantly growing demand for the  
small car, a demand which has been  
unusually heavy since the first of the  
present year and which is further  
expressing itself as the enclosed car  
buying season approaches.

Men whose business keeps them on  
the move about town all day were  
not long in discovering the excep-  
tional facilities afforded by the small  
car, and they were quick to adopt it  
as their standard motor car equip-  
ment.

Owners of large cars, finding their  
movements more and more restricted  
as traffic congestion increases, are  
rapidly reaching the conclusion that  
as an auxiliary motor transportation  
unit the small car is an essential  
business convenience.

Another interesting feature is the  
partiality, which women are showing  
for the smaller car. They find it more  
convenient and less fatiguing to op-  
erate, affording them a quick and  
convenient means of transportation  
for the shopping tours, for little trips  
to market, for afternoon calls, and  
for meeting other family requirements.

And new buyers, profiting by the  
experience of others, in investigating  
the merits of the small car find it  
meets all modern motoring demands,  
with the additional advantage of  
easier handling in the traffic line,  
thereby effecting a greater element  
of safety.

Short wheelbase, small turning  
radius, ease of steering, the impos-  
sibility of failure to accomplish gear  
shift and do it noiselessly, positive  
brakes, and a motor noted for its  
dependability are features of the Ford  
which have contributed largely in  
making it the most popular of all  
small cars.

And a much higher degree of owner  
satisfaction has been effected in these  
cars by recent improvements in both  
open and enclosed body types, result-  
ing in better style and greater riding  
comfort.

Star and their husbands Tuesday eve-  
ning at Masonic temple with a Hal-

tions carried out the Hallowe'en  
spirit, and dancing was one of the  
diversions.

The officers presented the worthy  
matron with a beautiful Eastern Star  
Oxyx ring, and the worthy patron  
with a silver receipt case. The of-  
ficers each received a dainty silver

SONG OF LIFE

Oh, I think there's nothing finer  
Than this grand old game of life,  
With its many little problems,  
And its cares and storms and strife,  
Yet with all its foolish worries  
There's so much of love and cheer  
That a feller can't help feeling  
It's so good to live right here.

Oh, I know there's much of sadness  
And there's much of hate and greed,  
And where we hope to find a rose  
We often find a weed.  
But I've found life's what we make it:  
What we sow, that will we reap.  
We can choose the easy path of life  
Or one that's rough and steep.

There are folks who in their hurry  
Haven't yet learned how to live,  
For they only think of getting,  
Never how they best can give;  
They haven't time to stop and say  
A friendly word of cheer,  
Or let someone discouraged  
Feel a friendly hand is near.

Yes, the game of life's worth playing  
And it pays to play it square,  
For we'll always get full measure  
When our love we gladly share.  
For the law of life is service,  
Just do all the good you can,  
For he who would be greatest  
Must serve his fellow man.  
HARRY GAMMICKLER.

FOR MR. WILKINSON

James Wilkinson was the guest of  
honor at a birthday dinner given Sun-  
day by his daughter, Mrs. Tom Wil-  
lacy, of Beacon street. Mr. Wilkin-  
son received several nice gifts. Cov-  
ers were laid for the honoree and  
Mrs. Wilkinson, Miss Mary and  
George Wilkinson, James Victor Wil-  
lack, Miss Annie Walker, Miss E. E.  
Carlisle, and the host and hostess.

BARNETT AND

GADEKY SAVE THAT BALCONY

Won again. Lost again. Won again.  
That's the story of the auditorium  
balcony in the new Torrance high  
school building.

First the board of education author-  
ized the balcony, which will seat 270.  
Then it was decided to do away with  
it. Right there Prof. Barnett and  
Harry Gadeky and Trustee Fitzhugh  
got busy. They won the balcony  
again.

A week later Prof. Barnett noticed  
that the pitch of the balcony was so  
slight that persons sitting in the rear  
rows would be unable to see the  
stage.

To increase the pitch would cost  
another thousand dollars. A com-  
mittee report was drawn up recom-  
mending that the balcony be left out  
of the plans.

Prof. Barnett informed Harry Gad-  
eky. Mr. Gadeky hurried to Los An-  
geles and nipped that report in the  
bud. The board this week authorized  
the expenditure of the extra thou-  
sand dollars. Torrance gets the bal-  
cony—a reward for co-operation be-  
tween school authorities and the  
Chamber of Commerce.

MOTOR COACH

CO. BUYS OUT DILLINGHAM'S

Long Beach-Santa Monica Line To Be Consolidated

Officials of the Motor Coach com-  
pany announced today that the com-  
pany has purchased the Dillingham  
line between Long Beach and Santa  
Monica and will assume control No-  
vember 10.

Another hearing by the railroad  
commission is necessary before the  
two lines may be operated as one.

A. L. Owens, traffic manager of the  
Motor Coach company, said: "Every  
effort will be made to co-operate with  
the public in the matter of courteous  
service, and it is hoped the patrons  
will bear as patiently as possible the  
inconveniences of non-stop trips  
through Lomita on the way to or  
from Long Beach or Santa Monica.  
That inconvenience will soon be a  
thing of the past."

Another Fageol coach will be put  
on the run between San Pedro and  
Redondo Beach on or about No-  
vember 15.

Free Gold Fish

(Including Fish Bowl)

SATURDAY, NOV. 3RD

We are giving away a crystal bowl containing two gold  
fish, with the purchase of a fifty-cent box of Lac-Lax,  
the delicious candy laxative.

Children delight in these lively little gold fish, the  
goldest we could find anywhere. They are fascinating  
to grownups, too, and the clear crystal of the aquarium  
reflecting the golden flashes of alert, busy little in-  
habitants adds an ornamental touch to the home.

We couldn't think of a more acceptable gift with  
which to introduce this very mild and pleasant laxative.  
And a laxative of this kind is very important at this  
particular time. Lac-Lax are mild and harmless, nothing  
habit-forming about them. Grown folks like them and  
children really delight in taking them, for they are  
just like little mint lozenges.
