#### Ford Turns Out 161,567 Cars in Month of August

DETROIT, Mich., Oct. 4.—August closed the summer season for the Ford. Motor company with sales of 161,567 cars and trucks, 39,608 more than were delivered at retail during the same month last year, it is just announced.

The remarkable increases which have characterized Ford sales so far this year, bringing them to a total of 1,212,553 for the eight months up to September 1, promise to maintain the same proportions during the fall season.

At least, this is indicated by the number of orders on hand at the first of the present month. The new type Ford cars, now in the hands of practically all dealers in the country, are attracting widespread attention.

The tendency toward enclosed car butter is growing more noticeable.

attention.

The tendency toward enclosed carbuying is growing more noticeable, and in this connection the four-door Ford sedan is gaining in popularity as the family car. This sedan has enjoyed a lively demand ever since its introduction, and now, with improvements which have come as a result of the higher radiator, it is more attractive in appearance than ever before. The Ford coupe, which is new in design and with many refinements, is enjoying unusual popularity.

Business and agricultural interests continue to make increasing demands for Ford trucks, and sales for August reached a total of 17,441, a gain of 5,147 over August, 1922. The tendency toward enclosed car

#### Sell Studebakers To Torrance and Lomita Residents

Mr. Krause, a reputable painter, whose keen sense of artistry has been responsible for maay colorful changes in and about the factory of the Columbia Steel company, has just purchased a new automobile. For two weeks Mr. Krause has been absent from his work in an effort to learn all about motor cars from various automobile dealers in Los Angeles. Not until Chester Roberts, Studebaker salesman with P. E. Hennis of Gardena, showed Mr. Krause a few of Studebaker's fine points did he believe that his idea of an automobile could be built in America or Europe. He will be driving a Studebaker light six coupe in a few days.

Mr. Getts of Torrance and Joe Luck, who predicted five years ago that Lomita would be a future oil field, have both bought new Studebaker automobiles—a light six touring car and a light six coupe.
