A Word of Appreciation to Our Customers

We wish to thank each and everyone of our customers for the liberal patronage accorded us during the year just closing.

We want you to know that we appreciate your trade and are sorry we cannot thank you personally.

We ask a continuance of your patronage during 1923 and will in turn try to give you better service and even lower prices—and with our new enlarged quarters, and larger stock, be able to give you better service.

We are striving hard to give the residents of this district a real live, up-to-date store. A store that you can well be proud of, and a store that adds prestige to the community.

Again thanking you and wishing you and yours a **Very Happy and Prosperous New Year.**
