

TORRANCE, CALIF., FRIDAY, APRIL 4, 1924 Every Tuesday and Friday 5c Per Copy

NO. 24

Candidates Present Platforms

At the request of the Torrance Herald the eight candidates for city trustees at the election to be held on Monday, April 14, have set forth to the public the platforms on which they are running for office. The Herald is gratified to be able to present the ideas of the eight candidates herewith. We cannot refrain, however, from remarking on the splendid character of the letters written by the candidates and the commendable absence of "mud-slinging," which so frequently characterizes - political announcements the country over. The letters follow, being arranged alphabetically from left to right, according to the term for which the candidates are running.

WILLIS M. BROOKS (Long Term)	CHARLES ELMAN (Long Term)	R. R. SMITH (Long Term)	GEORGE R. STEADMAN (Long Term)	LEE R. TAYLOR (Long Term)	JOHN S. TORRENCE (Long Term)	ROBERT J. DEININGER (Short Term)	WILLIAM T. KLUSMAN (Short Term)
Editor Torrance Herald. Dear Sir: Yours of March 27th, suggesting that candidates for City Trustee state the platform upon which they are run- ning, is very kind indeed and is greatly appreciated. Torrance is yet in its infancy. It is too young to have a past. Its growth is entirely in the future, and we must keep this thought ever before us, for the path of develop- ment at this time will, in a great measure, be the guide for its entire future growth. We must there- fore tread warily each step that is taken. With this in mind, my platform can be very briefly stated. The four candidates (of which I am one) pro- posed by the Torrance Business Men's Associa- tion and Torrance Realty. Board, have a four-square common platform, i.e., "Econ om y," "Justice,"	Editor Torrance Herald, Torrance, California. Dear Sir: Responding to your re- cent communication, wish to state that I did not seek the political office of trustee for the City of Torrance, but at the ear- nest solitication of my many friends I decided to accept the honor, and was nominated and am in the race to win. If elected by the major- ity of the voters, I will serve to the best of my ability, and without fear or favor propose to serve the City of Torrance and help make this city a community in which we may all be proud to live. I came to this city on July 29, 1922, from St. Louis, Missouri, and in the twenty months of resi- dence have taken interest in practically all activities	(Long Term) Editor Torrance Heraid. Dear Sir: Torrance has reached the most impor- tant stage in its progress as a city. Founded by a man with great vision, Torrance, in its early days, progressed without being pushed. During the early days of the city as an incorporated munici- pality, few intensely press- ing problems presented themselves. But now, with a great transcontinental railroad planning to make Torrance the center of a vast industrial district, with the city growing in population by leaps and bounds, problems of great moment to our future progress are daily present- ing themselves. It is therefore necessary that any member of a board of trustees of Tor- rance must enter his term of office with the deter- mination to devote his en- ergy and abilities unspar- ingly toward the fair and unbiased solution of these problems as they arise	(Long Term) Editor Torrance Herald. Before availing myself of the privilege accorded the candidates for trusteeship of the City of Torrance, by the Editor of the Tor- rance Herald, I wish to express my appreciation of the courtesy extended me, and the opportunity it gives me to state the platform upon which I am running as a candidate for City Trustee. My platform, good peo- ple of Torrance, is this: I stand for organized government, "of the peo- ple, by the people, for the people," uncontrolled by special interests, or by any private or public organiza- tion, and should I be elected, I shall go into of- fice as a representative of all the people, and shall weigh and consider affairs of municipal interest with an absolutely unblaseds mind, remembering always to accord to you, ladies and gentemen, the cour- tesy to which you are en- titled.	(Long Term) Lee R. Taylor for Trustee of the City of Torrance. As has been heretofore announced, I am a can- didate for the office of Trustee of the City of Torrance, four-year term. Not through my own de- sire, or to gratify personal ambition, did the fact of my candidacy come about; but as the result of the wishes of a group of resi- dents, property owners and voters of this citymem- bers of Torrance Free- holders' League. Those good persons apparently believe me qualified to fill, and discharge in prop- er manner the duites of, that very important of- fice. If a sufficient num- ber of the other voters of Torrance have formed, or can be induced to form, a like opinion as to my qualifications, and they desire to be represented on the Board by one so equipped, my election seems assured. If you voters of Torrance have not that faith in me, sin-	(Long Term) Editor Torrance Herald. Dear Sir: In response to your invitation extend- ed to the various candi- dates to make a statement to the public through the medium of your valued paper, will state that Jus- tice, Progress, Economy and Fair Play sum up the substance of my platform. Justice to one and all, with due regard to the majesty of the law. Progress in all that the word implies. The upbuilding of our city, the fostering of in- dustry. Helping our community to become such a desirable spot that not only will it attract the attention of the outside world to our fair city, but will so impress us with its own impor- tance and its prospects that we will desire no other home than Torrance. Economy in that every effort will be made to cur- tail waste and needless	I submit herewith my ideas concerning city de- partments and city af- fairs: Police and Fire Departments The safety of the city depends on the efficiency of these two branches of our municipal government. It is the function of the police department to see that all ordinances are en- forced, to protect life and property, and to keep pub- lic order. It is the func- tion of the board of trus- tees to see that these functions are observed to the letter. Our volunteer fire department is unex- celled in a city this size. It should be kept so. The cost of an adequate fire department is saved sev- eral times in reduced fire insurance rates. Street Department and Engineering With Torrance growing so rapidly this department is one of our most impor- tant. It is charged with	The Editor of the Tor- rance Herald has request- ed me to set before the citizens, property owners and voters of Torrance the foundation or platform on which I am running for the office of City Trustee. Torrance, up fo the present time, is strictly an industrial city, and there- fore to a large extent a workingmen's town. It is regrettable that not more working people, who are employed in the different shops and factories, do not live in Torrance and own their homes in this city. There must be an obvious reason for such a con- dition. It is not my aim to discourse upon the acondition, but to use the aforesaid to bring before the prospective voters what can be done to cor- rect such, and that is and has been my political
I believe in a sane, con- servative administration of the city's affairs, with a watchful eye for future needs, and a definite pol- icy of civic progress by development along nat-	which were for the good of Torrance. It is my conviction, and I consider it a duty, to represent not only the business men, but all fac- tions, and unite them for	from time to time. The city of Torrance is. not made up of any group or clique. The solution of all the city's problems, therefore, must be repre- sentative of the opinion	For the benefit of those who may wish to know something of my history, I am an American, was born in Montana, and have, lived in California about sixteen years. I first came	cerely, then, by preference —my advice, even—is that you elect another to serve you, not me. My name is slated with those of two other good	expenditures. To try to accomplish for the future things that will leave no regret for past performances. Fair Play: By giving each and every one the oppor-	the duty of maintaining city streets and of recom- amending specifications for proposed improvements. It supervises all work let out on contract. We are for- tunate-indeed -in having	platform, from the time that Torrance was incor- porated, and that is my platform now. Torrance needs a municipal govern- ment that will encourage home building by the
ural lines. I believe in strict en- forcement of laws, effi- ciency in all the depart- ments of the city govern-	the promotion and up- building of Torrance, and with this plan, ask the support of all the good citizens in this election. Briney Recommends burt Decision On Steadman Petition **Court Decision On**

City Clerk A. H. Bartlett tele-phoned The Herald from Los An-geles this morning that George H. Steadman had secured a writ of mandamus compelling the clerk to place his name on the ballot for the election of April 14. The application for the writ was not contested by City Attorney P. G. Briney, who advised Steadman to apply for it in order to protect himself as well as to avoid the possibility of a contested election.

In order to protect the city of Tor-rance from the possibility of a con-tested election, City Attorney Briney has requested George R. Steadman to apply to the courts for a writ of mandamus compelling the city clerk to place his (Steadman's) name on the ballot as candidate for city trustee at the election of Monday, April 14. Steadman's petition was made out by the circulator for George R. Stead-man. The city attorney at first be-lieved that it would be permissible to place Steadman's name on the ballot correctly, but, foreseeing the possi-bility of a contested election, request-ed the candidate to apply for the mandamus writ. In order to protect the city of Tor

FIELD INJURE

seriously, by accidents in the field, this week.

Russell Edens of the R. K. Drilling company, nephew of "Tuck" Edens, well known president of the Fortuna Oil company, was severely hurt Tues day afternoon when the elevator on the Edens well at Eshelman and Pine the Edons well at Eshelman and Pine street broke, while the crew was pulling out drill pipe. Edens' collar bone, left wrist and left ankle were broken and he sustained severe lac-erations on thê face. He was treated at the emergency hospital on Nar-bonne avenue, where physicians fear that he may have been injured in-ternally. E. A. Thompson and J. P. Connor of Long Béach were severely burned when a leak in a gas main in Penn-

Observations

= By W. HAROLD KINGSLEY

AT last, after long years of effort, contention, strife, pleading with the board of supervisors, proposed bond issues and what not, Western avenue is about to become a through highway from the San Fernando valley to the harbor at San Pedro. In the history of this district no more important events have ever taken place than the signing of the contracts by the county of Los Angeles and the city of Torrance for the paving of this important highway.

Angeles and the city of Torrance for the paving of this important highway. The county has awarded the contract for paving of the strip from the northern limits of Torrance to the end of the present pavement, including that portion of the artery which lies in the city of Los Angeles. The city of Torrance has signed a contract with H. G. Feraud for the paving of the highway to the northern limits of the incorporated area. The county has advertised for bids for the pavement which will connect the highway, as it runs through Lomita, over the Palos Verdes hills to San Pedro. This series of events means untold advantage to Torrance, to Lomita, to Harbor City and to Wilmington. It is not necessary to recount those advantages. Every person who thinks at all knows that "progress halts where the pavement ends," as

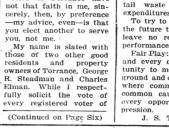

Progressive Club Invites Public to Parade And Meeting

Plans for a big Progress club pa ade and political rally, to which the general public will be invited, were announced at the Progress club meeting at the Methodist church last night. The torch-light procession, headed by the G. A. R. Fife and Drum Corps of Long Beach, in uniform, will opposite the First N

thinks at all knows that "progress halts where the pavement ends," as our advertising manager once aptly stated it. And all thinking persons, likewise, realize that with traffic comes increased business, increased property values, and a strong impetus to growth. Within a few months traffic will be running over Western avenue, through Torrance and Lomita and either to San Pedro, Wilmington or Long Beach. Motorists who travel frequently from the Hollywood district, from the great San Fernando valley to Long Beach or San Pedro will come over Western avenue as the most direct route. Traffic from the harbor and Long Beach, headed for Hollywood or the valley, will use Western avenue. Residents of San Pedro, bound for Los Angeles, will come through this district over the new highway. The culmination of the long and tireless efforts of individuals and civic organizations to get Western avenue paved through has been re-

The culmination of the long and tireless efforts of individuals and civic organizations to get Western avenue paved through has been re-warded. The success of this constant hammering proves again that anything worth getting is worth going after hard and strong, without regard to setbacks and obstacles. Now that Western avenue as a through paved highway is assured, it behooves the various communities to direct their energies to other problems.

¹ It behooves the various communities to direct their energies to other problems. Torrance should now direct its efforts to getting Carson street paved: first to Harbor boulevard, then to Long Beach boulevard, and then on to Orange county. This program is contemplated by the Harbor District Chamber of Commerce, the regional planning commission, and other agencies. Civic bodies in Torrance should "keep hammering." just as they have done in the case of Western avenue. Another matter of moment must be considered soon. When Western avenue is completed the traffic over Arlington and Narbonne avenue will be too great for the present width of the highway south of Plaza del Amo. It is reported that land has already been dedicated by many property owners in Lomita for the widening of the street as far south as Acacla street. The large amount of oil field traffic on Narbonne avenue and South Arlington street (both of which will soon be named Western avenue) already keeps the highway in a congested condition. Unless

Ser and

ed the candidate to apply for the mandamus writ." Sartori and Marcelina streets, at 7 "We will not contest the issuance of the writ," said the city attorney today. "But I believe Mr. Steadman, for his own protection, should take the matter before the courts. If the city clerk is commanded by a court of law to place Mr. Steadman's name on the ballot, there will be no possi-bility of a contest of the election." dates will speak, outlining their plat-forms to the public. The Progress club campaign com-mittee last night predicted an over-whelming victory for the club's ticket.

People Are Urged To Observe Rules Of L. A. Quarantine

Western Avenue **Contract Signed**

and the second second

The contract between the city of Torrance and H. G. Feraud for the paving of Western avenue to the northern Porrance limits was signed Wednesday afternoon. Work on the pavement will start in a few days.

1

Secretary Gadeky of the Chamber of Secretary Gadeky of the Chamber of Commerce attended a meeting of Southern California C. of C. execu-tives at Los Angeles Wednesday, held for the purpose of impressing on the various communities the necessity of observance of the quarantine for the hoof and mouth disease.

at the polls on April 14. Capt. Louis Hanson of San Pedro spoke. He praised the club b for "its progressive part in the affairs of this rapidly growing city." He laid especial-stress on the great advantages to Tor-rance of Western avenue, paved from the mountains to the sea. "Your city, he said," is just far enough from the harbor to enjoy a tremendous industrial growth. I con-tidently expect to see Torrance the center of a vast industrial district. The manner in which you have ham-mered away at Western avenue for years ought to serve as an example for other communities." EXCHANGE COMPLIMENTS

The Long Beach Chamber of Com-merce has made the Torrance Cham-ber of Commerce an honorary mem-ber. The directors of the Torrance chamber instructed Secretary Gadeky to return the compliment.
