HOW'S YOUR HEALTH?

By Dr. W. F. Thompson

They make sugar out of beets, but nothing out of dead beets.

He gets too fat who eats too much; it makes him slow and wheezy.

Too many of the 1925 model families are of the two-passenger type.

He lived to eat
And posed as wise:
Now here we read
Of his demise.

Keeping well is as free as the air; getting well is expensive.

When Willie is home from college we live in the land of the midnight sun.

Well, anyway, we hope that there is no danger of these cold waves beginning permanent.

What foolish things we people do—
"Swearing off" while the year is new.

This ancient custom's just a token
Of pledges made and quickly broken.

The "turred tongue" that so many people complain about is probably caused by drinking hair tonic.

Oh, let's not buy the unwrapped bread,
Exposed to flies and dust.
We eat of it, and then we're dead
From the microbes on the crust.

We hear a good deal about "first aid to the injured," but what we really should know more about is first aid to the uninjured.

When everything's frozen
And hoary with frost,
It isn't the fuel
That runs up the cost;
It's bad ventilation
That brings in the bills
From doctors and nurses
For treating our ills.

As we understand this birth control, only Bachelors of Science will be permitted to bring children into the world.

Even the milk of human kindness is often contaminated.

He boasts of health,
As well he may,
Who hits the grit
At the break o' day.
