## WORLD'S CHAMPIONS ENTER L. A. RODEO

To furnish the thrills at the \$200,000 Los Angeles "World Series" Rodeo, May 20, 21 and 22, in the Los Angeles Coliseum. Upper left—Indian brave of the Flathead tribe, to ride and race. Upper right—Adelbert P. Day, director-general. Lower left—Hugh Strickland, world-famed rider and arena director. Lower right—Mabel Strickland, cowgirl queen. Center—Steer wrestlers in action, one of the hair-raising events on the program.

LOS ANGELES.—The winners of the Roosevelt trophy, the highest honor a cowboy can gain, for the past four years, all will be here for the \$200,000 Los Angeles Rodeo, to be staged May 20, 21 and 22 in the Coliseum, seating 90,000, according to an announcement just made by Addison P. Day, general manager of the event, for which \$20,000 in cash prizes is posted. The Roosevelt trophy is annually awarded the cowboy who scores the most points as an all-around performer at the Cheyenne Frontier Day in Wyoming and the Pendleton Roundup in Oregon. Possession of the cup is generally recognized as a world's championship

among the wild west fraternity for the season represented. "Yakima" Canuck, the 1923 winner of the trophy, is now in Hollywood and is expected to enter the rodeo. "Paddy" Ryan, the 1924 winner, has just arrived here for the forthcoming event. Bob Crosby of Kenna, N. M., has advised Hugh Strickland, the arena director, that he will be here to enter the arena. Norman Cowan, who won the coveted cup last year, also is a recent arrival in Los Angeles from his home at Glen Ellen, Calif. Word has just been received from Arlee, Mont., that a whole trainload of Flathead Indians will arrive over the Union Pacific this

week for the big show. They are bringing with them more than 100 of their famous "palmino" and "pinto" ponies, bred for generations for speed and striking coat color. The Flatheads are famed as the greatest bareback riders in the world, and proved one of the most spectacular features of the big rodeo staged last year in the Grant Park Stadium in Chicago. They will appear in trick riding and racing contests in addition to entering the prize events as individual performers. They also will perform their famous tribal dances during the show. They will be encamped at an Indian village at the Coliseum during the rodeo.

day evening, and were the guests of the Kiwanis Club, sponsoring organization, at the club dinner Friday noon.

The next meeting of the Torrance Court of Honor for the review of merit badge applications will be conducted at the Scout building next Wednesday evening, under the leadership of Herbert S. Wood, principal of the high school.

The next rally for local scouts will be conducted in the auditorium of the elementary school on Friday evening of next week, to which rally a cordial invitation to be present is extended to all parents and friends of local scouts. In addition to awards earned since the last rally there will be interesting contests in scout activities.

It is hoped to organize a harmonica band before the summer vacation period, using the Troop 4 harmonica quartet as the basis of the organization. Instruments will be provided, and local scouts will act as instructors.

Interesting and instructive equipment recently added at the Scout building includes a dummy burro for the purpose of demonstrating and teaching the "throwing of the diamond hitch."

Definite plans are being formulated for the summer vacation period. Troops 1 and 4 are plan-

Troop No. 1 enjoyed an ice cream and candy feed at its meeting last week, the Legion post, sponsoring organization, providing, with James H. Scott present to represent the Legion. The troop is changing its meeting night for the next four weeks to Tuesday so that Wednesday evening may be available for the organization of another troop.

Troop No. 2 will be organized next Wednesday evening at the Scout building under the direction of the district commissioner and with William Edmunds as the scoutmaster. Mr. Edmunds is a newcomer to Torrance, having recently come here from Fordson, Mich., where he had a troop for several years. Former scouts desiring to rejoin the organization and boys interested in becoming scouts are invited to be present. The invitation includes boys who are not 12 years of age but who will be 12 before July 1.

Troop No. 3 members are happy in the announcement that Robert Lowellen, who has proved a most satisfactory scoutmaster, has recently considered his resignation and will continue in his former capacity. The troop members were the guests of the Rotary Club, the sponsoring organization, at its dinner last week, and provided a program. Clifford Crane and Wendall Leatherman are new members of the troop.

Troop No. 4 has revised its leadership to the extent of making James Baguley junior assistant scoutmaster, Raymond Flood senior patrol leader, and George Kyle patrol leader of the Fox patrol. The vacancy created by these changes has been filled by the admission to troop membership of Edgar Reeve. The troop members entertained 22 members of Redondo Troop 5 at their meeting on Thurs-

## Big Barracuda Run At Catalina Island

AVALON, Catalina Island.—The first black sea bass of the season was taken here today on light tackle by H. Page Randall, fishing with Harry Warner from the launch Dixie. The bass weighed 13 1/2 pounds, and fought the angler for one hour and twenty minutes against the light nine-thread line. Mr. Randall's catch takes the Walter Richmond trophy of the Catalina Light Tackle Club for the first giant black sea bass caught on light tackle for the season.

The heaviest run of barracuda in many years is reported in Catalina waters. Mr. Randall and his boatman ran through a school that extended for acres. He took 30 barracuda on rod and reel within 45 minutes. The fish averaged 10 pounds each in weight. Mackerel also are running and yellowtail are making their appearance. Mr. Randall hooked one, but lost his catch through a twisted leader. Two yellowtail have been taken so far this season. Flying fish are plentiful and indicative of a big tuna season, say sport anglers who are in watchful waiting at the island for the first blue-fin of the season.

Use Duro-cote for that leaky roof. Consolidated Lumber Co.—Adv.

# Why Firestone GUM-DIPPED TIRES Wear Longer

WE recently were given the tremendous advantage of having the mammoth Firestone factories brought to us. In Tire Educational Meetings we were shown, by means of motion pictures, charts, tire samples and complete engineering data, the details of Firestone tire design and construction—and how Firestone and Oldfield tires and tubes are made in the world's most efficient and economical rubber factories.

Firestone pioneered the original low-pressure tire and made it practical by Gum-Dipping. The motion pictures showed us how the cords of the carcass are dipped in a rubber solution, thoroughly saturating and insulating every fiber of every cord with rubber. Simple demonstrations and tests illustrated the great advantage of this process, which supplies the extra strength to withstand the extra flexing strains of low-pressure construction—one of the reasons why Firestone Gum-Dipped Tires are establishing such unheard-of mileage records.

We learned why the Firestone Balloon Tread gives extra safety, comfort and long wear. We were shown why Firestone, from the very beginning, designed and continue to use the round Balloon Tread, minimizing "shoulder breaks", so destructive to tires. Excess rubber at the edges of a Balloon Tread is wasted—actually detrimental to tire mileage. In the Firestone Tread the small units and sharp projections are scientifically placed to permit easy flexing, resulting in extraordinary riding comfort.

Come in and let us put a set of these Gum-Dipped Tires on your car—you can forget about tire trouble. Quality is higher than ever before—prices are lowest in history. Buy now!
