The house herewith illustrated ows how attractive a modificahandled as to give the low cottage effect of the old English farmand still maintain a full

second floor.

This is important when considered from the standpoint of economy, as every foot of floor space represents dollars expended and it must be used to full advantage. In other words, "the vantage. In other words, the house should have a charming ex-terior but it must also have an economical plan. In this little house the architects have com-pletely met these requirements. The plans are very compact.

totalia de into a small vestibule which opens into the living room, with a generous coat closet provided on one side. From the front door one enters | been reserved sufficient wall space

The main stairs start up from The main stairs start up from the living room, opposite the entrance; while the cellar stairs go down from a rear entry, thus serving the kitchen as well as allowing access to the cellar from the outside. This rear entry provides space for the ice box, so the ice man does not enter the kitchen.

A generous sunporch opens from the living room. This porch has windows on three sides with lower boxes beneath.

flower boxes beneath.

On the second floor we find two large bed rooms, a smaller room and a good size bath room. There is ample closet space.

Throughout the house there has

laundry, heating plant, coal bin

Cook With Comfort

Keep the heat in the oven and out of the kitchen by using a Tappan gas range with an insuffated oven.

Makers of the Tappan range have been among the leaders in the manufacture of gas ranges for the past forty-five years. On display at the offices of the Southern California Gas Confepany and at 240 South Hill Street, Los Angeles.
