Work Called for Prompt **Cleaning and Pressing** and Delivered Service SAM LEVY says he has more confidence than ever in the future of Torrance. He recently bought a home on Engra-cia avenue and says if he had a million he would invest it all here. What promises to be a b Fred Freeman Is to Lecture Here **Torrance Booster;** to Lecture rifere What promises to be a real treat is the anticipation of the next Brotherhood banquet held at the First Methodist church, Feb. 6, when Ralph E. Oliver, world trav-eler and lecturer will in his own humorous way give his illustrated costume talk assisted by Glenne E. Oliver and Mae Gilbert Resses at the piano. Costumes of the differ-ent countries will be worn. Mr. Oliver has made three world tours and next summer will visit 11 of the European countries. The community is cordially in-vited to attend these monthly meetings of the Brotherhood. Res-ervations must be made early. Call Mr. Hall 78-J. This Proves That N Freeman announced to-Free N. Freeman announced to-day that he has expended \$2400 in remodelling and adding, equipment at Freeman's Cafe on tabrillo av-enue. A large electric serior tas been installed and spacious new refrigeration units placed in the kitchen. The cafe now pre-sents a spiendid appearance with its window display. Mr. Freeman Mrs. S. A. That bulletin should give all publishers pause. A MATHEMATICIAN with a sharp pencil and pienty of blav paper has figured out that if all the people who worked New York office bulldings decided to descend to the street level the same time they would be seven deep from curb to curb. To sort of ciphering may seem to be fruitless for all of the off workers on Manhattan Island will probably never seek the str simultaneously. At the same time an earthquake might precipil a general movement from the offices to the street. Wherefore, 1 Yepkers who have imaginations are doing a little worrying. The possibilities of simultaneous exit in Manhattan are so inter to consider that the Matropollan Life neurance Company is not near in easing the difficulties of the rush reverses of the rush

a general movement from the offices to the street. Wherefor Yorkers who have imaginations are doing a little worrying. The possibilities of simultaneous exit in Manhattan are s rible to consider that the Metropolitan Life Insurance Compa decided to do its part in easing the difficulties of the rual in Gotham. The 10,000 employees of the company have be dered to report for their jobs in four shifts in fifteen minu-tervals. Other employers of large numbers of people have mined to follow the example set by the Metropolitan. The company, large department store, has put the opening hour store a half hour later than usual to make the plan successful world on account of the extreme height of the buildings, problem of handling the crowd during the morning and e-rush hours is becoming worse rather than better. All Am cities must sconer or later tackle this difficult problem. The mate sloution must necessarily be the spreading out of business tries and the establishment of commercial centers in various serie locations. This trend is already notlecable in many Am eities. One need look no farther than Los Angeles to witness spreading out of the retail business area.
