Supervised Summer Playground
Is Opened with New Features

The Torrance summer playground was opened Monday with H. H. Arindley in charge. Several new features added to the regular attractions this year will greatly increase the popularity of the playground. An indoor ball league will be started soon, and will be open to all the boys of Torrance. All boys interested are asked to attend the playground activities in the near future in order that teams may be chosen and captains elected. There will be several competitive games with teams from other playgrounds. Another feature will be the tennis tournament, where there will be singles and doubles matches for both boys and girls. A little later Mr. Arindley is planning basket ball games in the high school gymnasium. Horseshoes, and handball and checker tournaments will provide other activity. Added to the program this year will be special forms of entertainment once or twice a month. These will be wicker bakes, swimming parties or entertainment in the Elementary school auditorium.
