Boys Will Take Yosemite Trip

Next Wednesday morning 30 Torrance Scouts are leaving on a five day trip to the Yosemite Valley under the leadership of the assistant field executive, Ellis P. Moore Jr. The two trucks used for transportation will be driven by F. L. Parks, Wilmington Scout Commissioner, and Frank H. Steinhilber, Scoutmaster of Troop No. 1. The trucks were donated by the Kern Creamery.

It is planned to leave Torrance at 2 A. M. and to make the drive so as to reach the valley the same evening, using the new highway in from Merced. Three days will be spent in the park and the return trip to be made on the following Sunday although it may be possible that the return may be delayed until Monday, giving another day in the park. While in the park the Scouts will sleep in pup tents; using ground cloths to lay on the ground after scraping away the snow. As usual in Scout camps the cooking will be done by the Scouts themselves.

The valley is reported as deep in snow and the Scouts making the trip are preparing to enjoy all the winter sports for which the valley is famous. They are taking with them skates for ice skating, snow shoes, skiis and a seven foot toboggan.

Included in a group series of meetings and luncheons for department teachers are lectures and discussions in art, biology, classics, commercial subjects, educational research and guidance, English, health and corrective physical education, oral arts, science and mathematics and social science.

For vocational teachers the program includes lectures on "Need for Trade Training," "Modern Styles," "Trade Extension Training", agriculture, apprenticeship training, occupational studies and industrial arts.

A number of Torrance and Lomita music lovers attended the convention concert given last night at Trinity auditorium by the Cauldron Singers of Pasadena, an ensemble of nearly one hundred male voices. The program included a group of Christmas songs of surpassing beauty; a Beethoven oratorio chorus from "The Mount of Olives;" a group of love-songs by Brahms, the essence of each being carried in the four hand piano parts, with the voices used largely as background and accompaniment, and a group of songs by the celebrated Barrett. The program closed with a Chopin number that included a violin obligato with soprano solo over the male chorus of eighty voices. Hazel Rhodes, guest artist, a soprano with remarkable personality was heard in choral numbers, with tonal background supplied by the singers.

LOMITA NOTES

Roland Sace and Oscar Anderson of San Pedro spent the week end as the guests of Mrs. William Curtis of Redondo boulevard.

Owing to the large increase of business, Mrs. A. F. Welton of Narbonne avenue has had to move her restaurant located in a market on Seventh street, San Pedro, to larger quarters a few doors away.

What Famous Users Say About Richfield

RALPH SNODDY

"Richfield Gasoline and Richlube Motor Oil were used when I established the present world's record for Unlimited 151 Class Hydroplanes and when I won the famous Duke of York trophy at the International Regatta in England. I have used them exclusively for several years and in my opinion they are the finest gasoline and motor oil made! I enthusiastically recommend Richfield and Richlube for all types of speed craft on land, air or water."

The most daring hydroplane pilot in America today—Ralph Snoddy! Time and again, in this country and abroad, he has risked life and limb in his attempt to better existing speed records. Snoddy's preference for Richfield, his recommendation of Richfield and Richlube for all types of craft is strong endorsement for these famous products.

Richfield products are also used and endorsed by many other famous pilots and designers—such men as Fred Duesenberg, Anthony Fokker, Art Goebel, Allan Loughead, Harry Hartz, Captain Wilkins and Harry Miller—men whose achievements as designers and pilots are internationally recognized.

Richfield's qualities—proved in grueling competitive events—are the same qualities you need in your own motor car—instant speed, power and acceleration without loss of mileage—absolute dependability. What gasoline do you use?
