

BUILD AND LIVE IN TORRANCE

A HOME OF STERLING CHARACTER

E. C. HUNTER & BRO. Architects

By R. C. HUNTER & BRO., Architects, New York City

A good substantial home of sterling character, presents an attractive exterior, is economical to build, requires but a forty-foot lot and has garage and maid's room attached, also has a generous attic, an ideal complete small home.

A worthy feature of the plan arrangement is the large wardrobe space over the sun porch and garage, real hanging space for clothes, now superior to small stuffy closets.

The main bath is connected with a hall so that it may also serve as a first floor lavatory, a convenience for the family.

Complete working plans and specifications of this house may be obtained for a nominal sum from the Building Editor. Refer to House A-100.
