

KEYSTONE NOTES

Mr. and Mrs. Charles H. Pierce of Dolores street were hosts on Thursday evening at their home to a group of friends. Cards furnished diversion during the evening and light refreshments were served by the hostess, Mrs. Pierce. Those present were Mr. and Mrs. L. B. Johnson all of Long Beach, Mr. and Mrs. Ben Baker of Los Angeles, and Mr. and Mrs. George Koehler and Mrs. Fernia Piper of Key-

stone. Mr. and Mrs. George Nahmens of Carson street entertained a group of relatives at their home recently. Covers were laid at dinner for Mr. and Mrs. Herman Brandenberger of Redlands, Mr. and Mrs. Gerald Paxton of Sanger, Mrs. G. B. Stone of Yakima, Washington, the host and hostess, Mr. and Mrs. Nahmens, son, Elwood and daughter Ruthie. Miss Nola Holt of Oxnard was the house guest last week of Miss

Monavee Cowan at her home on Amelia street. Eugene P. Wetzel has been assigned to Carson street school to teach agriculture and will be here on Fridays. The directors of the Keystone Chamber of Commerce met at the home of J. B. Black on Main street on Wednesday evening and discussed plans for the regular business meeting to be held on the 26th.

FOR THE TELEPHONE

Modern convenience is best built by a piece of the nature illustrated above. This is a telephone stand and bookcase of excellent design. The right hand compartment takes care of all the telephone books. This is of importance because, although it is convenient to have these at hand, they are never to be found when wanted. They can be made a part of one's decorative scheme by being handsomely encased in lovely covers obtainable in airbrushed patterns on a new processed waterproof fabric. The left hand compartment takes care of one's surplus books tall and small. It will also be observed that the height of the lower portion of this table provides a seat for one when telephoning, just as the upper level proves convenient to rest one's elbows and the telephone upon when speaking. This table comes unfinished and may be lacquered navy blue with an ivory lining or apple green, trimmed with silver leaf.

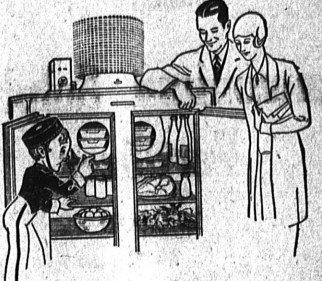

A DUNCAN PHYFE CARD TABLE

The regulation folding bridge table is often a jarring note in an otherwise well furnished room. For this reason it is wise to have a card table of the period style in which the rest of the room is decorated. In the illustration sketched above, we see a Duncan Phyfe card table of mahogany with a panel of black satin inserted in the top. For a Federal or an 18th Century English room, this would be an excellent choice. The side chair is the same style and makes a fitting companion for the table.

KEYSTONE NOTES

Mr. and Mrs. Elie LeBlanc and son Junior and Mrs. LeBlanc's parents, Mr. and Mrs. W. B. Millern of Terminal Island motored to San Gabriel Canyon on Saturday and on their return home enjoyed a basket lunch at Brookside Park in Pasadena. A pleasant afternoon was spent by the members of the Crochet club and their guests at the home of Mrs. Thomas A. Cowan on Amelia street on Thursday afternoon. Mrs. Cowan presided, over a delicious chicken dinner at noon and the afternoon was spent socially. Covers were laid for Mrs. S. S. Tappell, Mrs. Harry C. Roque, Mrs. George Nahmens and her sister, Mrs. C. B. Sibbe who is visiting here from Yakima, Washington. Mrs. Fernia Piper and Mrs. Jennie Martin all of Keystone, Mrs. H. T. Foxworth of Long Beach, and Mrs. Z. W. Jennings of Glendale. Mr. and Mrs. William Looser and family of Amelia street recently motored to the home of Mr. Looser's cousin, Thomas Looser in Redlands. Mr. and Mrs. A. M. Larsen of Windsor Road, Glendale visited at the home of Mr. and Mrs. F. F. Howe on Dolores street on Saturday.

Answering your questions about Electric Refrigeration

THERE are certain questions you should ask about any electric refrigerator before installing it in your home... some of these questions are answered here, others will follow in succeeding advertisements.

Is the temperature always satisfactory for perfect preservation of food?

Scientific authorities set 50 degrees as the danger line, above which food spoils rapidly. Automatically, the General Electric Refrigerator maintains a temperature that is always below 50 degrees, scientifically correct for the preservation of food.

Is it constructed with a maximum of food shelf area for size of the cabinet?

The small, compact chilling unit of the General Electric Refrigerator leaves more room for food storage. This food storage capacity, rather than interior or exterior dimensions, is the fair basis on which to determine refrigerator value.

Is the interior of the cabinet conveniently arranged?

Domestic science experts, women well versed in the proper arrangement of food in a refrigerator, worked with General Electric engineers. The sturdy shelves are properly placed and properly spaced for the most convenient food arrangement.

BECAUSE it answers every requirement, the General Electric Refrigerator has won overnight popularity among the home-makers of America. We invite you to see it in any of our offices or those of your own dealer.

FREE TO PROSPECTIVE HOME OWNERS

How would you like to receive in tomorrow's mail a beautiful 36-page book in a leatherette cover containing rotogravure reproductions of more than 30 attractive moderately-priced California common brick homes? These houses have actually been built and lived in...the book contains large photographs of each with floor plans and sketches of interior features. It also presents a plan for supplying at nominal cost complete working plans and specifications for any house you may happen to select.

These books have been selling regularly at 50c per copy. We have a very limited number which we will mail free and postpaid while they last to those who will send for them on the coupon below. You may send for a copy without the slightest obligation, but because of its unusual value and the very limited number available, we ask that inquiries be confined to those who are definitely planning building a moderately-priced home during the coming year and who are genuinely interested in considering the many advantages of common brick for residences.
