Mule-Kick Waste Pipe Cleaner is a scientific preparation of concentrated strength. It is free from odor and offensive fumes. It dissolves all grease, hair, wool and slime. It reduces matches, lint, paper and other vegetable matter to a soft pulp that washes away or can be easily removed by a force-cup.

An Attractive Yet Economical Home

FIRST FLOOR PLAN

By R. C. HUNTER & BRO. Architects, New York City

In these days of high prices it is indeed a relief to find a small and economical home that still presents an artistic appearance. The little bungalow shown here, with combines these features very happily.

The roof is green shingle (that always desirable material and color), the side walls are white and colonial blue shutters make a spot of gay color. The gables are covered with smooth matched boards, painted white—that give the effect of a stucco finish. There is a small brick chimney on one end. One enters the house through the enclosed porch into the living

room. There may be found a cozy open fireplace—flanked on either side by windows that are at once decorative and useful, giving an opportunity for very effective interiors.

There is a completely equipped kitchen and a very generous dining alcove on this floor and two bedrooms and a large tiled bathroom. The laundry, heating plant, fruit closets and cold storage, may be found in the collar which is under the entire house.

This would be especially good for a family of two or three people. Complete working plans and specifications for this house may be obtained for a nominal sum from the Building Editor. Refer to House A-127.
