Rev. J. F. Ransom will bring the message at 11 a.m. and Mrs. Ransom will speak at 7:30 p.m. Sunday.

CHRISTIAN SCIENCE CHURCH

"Christ Jesus" will be the subject of the Lesson-Sermon Sunday in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

One of the Scripture selections in the Lesson-Sermon will be as follows: "And it came to pass also on another sabbath, that he entered into the synagogue and taught: and there was a man whose right hand was withered. And the scribes and Pharisees watched him, whether he would heal on the sabbath day; that they might wind an accusation against him . . . . Then said Jesus unto them, I will ask you one thing; Is it lawful on the sabbath days to do good, or to do evil? to save life, or to destroy it? and looking round upon them all, he said unto the man, Stretch forth thy hand. And he did so: and his hand was restored whole as the other."

A correlative passage from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, states: "Jesus beheld in Science the perfect man, who appeared to him where sinning mortal man appears to mortals. In this perfect man the Saviour saw God's own likeness, and this correct view of man healed the sick."

Legion Auxiliary To Meet September 2

The American Legion Auxiliary will hold their regular business meeting Tuesday, September 2.

Officers for the coming year will be nominated and reports from the convention in Sacramento will be given.

Husbands and Book Now Operate Station

Jack E. Husbands, formerly of the P. E. shops, and Jimmie R. Book, formerly of the California Crane Company, have taken over a service station at 1403 East Carson street and are planning extensive improvements of their business.

Husbands and Book are operating a complete oiling, lubrication, garage and repair service. A large lubricating hoist and other equipment will be added within a week, they said today.

ARRESTED IN LOMITA

J. H. Hart, 42, 2505 257th street, was arrested in Lomita early Tuesday morning by Constable Taber and Deputy Constable Straight on charges of possession of liquor and possession of apparatus to manufacture, according to police reports here. Hart was lodged in the city jail pending his trial, the date for which was not determined as yet.

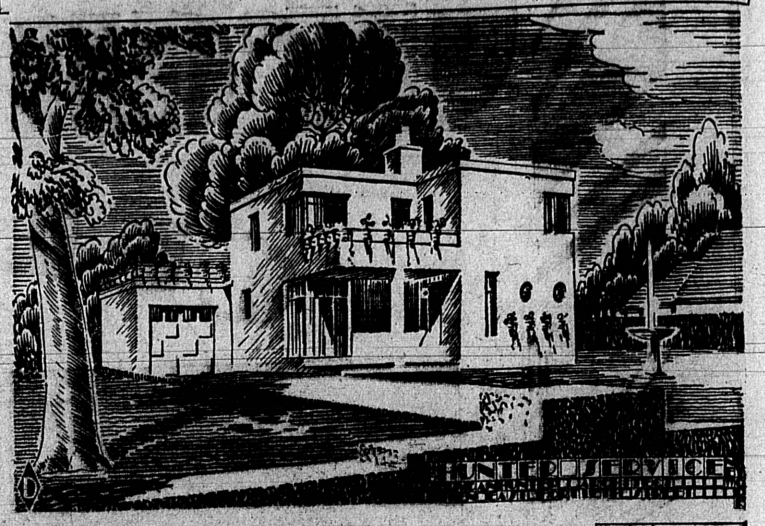
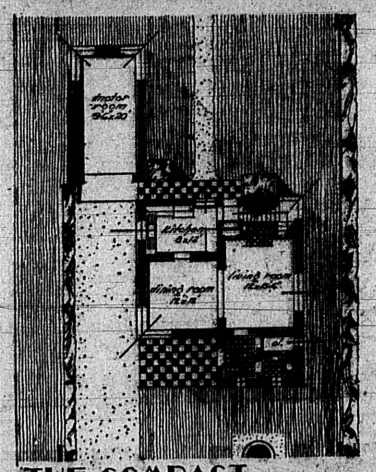
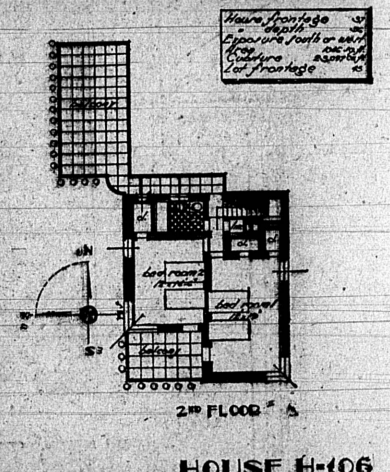
OUR MODERN STYLE—THE COMPACT







THE COMPACT — HOUSE H-106

By DUNCANHUNTER, Architect, New York

New ideas in ways of living, new materials, new methods of construction and new thought have started an independent "Modern Style" in architecture and decoration which is daily gaining in public favor. Its appeal lies in its freshness and studied simplicity in design with novel and intricate details in construction in some cases. The historic architectural styles have been hashed and rehashed until there is nothing left that at all refreshes one—just one house after another, no real distinction, nothing to hold our interest. The modern, although basically simple offers limitless opportunities for new and distinctive effects.

The design of the house—its physical shape, style and arrangement, its doors and windows, its placement, its gardens, its interiors and furnishings—all have undergone drastic changes, the excess baggage has been eliminated and the house has been designed to suit its purposes—a place to live in.

The roofs are utilized as decks from which one may enjoy the air and sunshine amid privacy denied first floor porches, and here unusual vistas open up in all directions as one looks down into the garden. There is no walled-in effect. This same open spaciousness goes for the interiors as well. Large windows concentrated, leaving large unbroken wall surfaces for furniture, simple treatment of walls and ceiling, fitting furniture and the whole is satisfying.

The Compact is modern throughout. It has: Cellar, (full area of house); laundry, heater and general space, cold room, and a recreation room could be provided if desired.

First floor: Entrance vestibule with lavatory and coat closet, living room, dining room, kitchen, front and rear covered terrace and a one-car motor room.

Second floor: Two bed rooms, a bath, closets and two large balconies or decks, one over the front terrace, the other over the motor room.

Ceiling heights: Cellar, seven feet; first floor, eight feet six inches; second floor, eight feet. Exposure: The plans as shown are for a lot facing south or west. For a lot facing north or east the plans should be reversed. Lot size: House frontage, 37 feet; side clearance, left, three feet; right, five feet; lot frontage, minimum, 45 feet.

Construction: Hollow tile with stucco finish; roofs and decks, canvas; foundation, concrete; windows, metal casements in special arrangement with intergal screens, and doors, wood, to special details. Interiors: Floors, linoleum; walls, plaster in special moulded texture; ceilings, plaster, with cornices; kitchen, composition tile; bath room, composition tile, and steam heat, gas and electric wiring. Cubiture, 23,097 cubic feet. Approximate cost, $7,500. Complete working plans and specifications of this house are available for a nominal sum. Address the Building Editor and refer to House H-106.
