## Letters to the Editor

The Torrance Herald accepts no responsibility for articles published under this heading, but is glad to publish opinions of its readers even though these opinions may differ from those of the publishers.

### Editor, Torrance Herald:

There is a petition being circulated for the benefit of the prohibition to raise the tariff on Chinese goods. So we poultry men can't have a better paper for our country regardless of the consequences. I have signed it in the same spirit as if it had been a small child. I signed it just to please. The prohibition is a human problem, it cannot be solved with a flexible tariff or any kind of tariff.

### Says Natives Were Right

The whole world today is settling on top of a volcano. A few years ago we were talking with an optimistic man in a restaurant. He said that we had over-production of eggs and I said that we had too many under-nourished people. One man who had given his order at the counter said, "Here, I have an appetite for ham and eggs." I ordered a turkey and a ham.

### For the Common Good

From that day I resolved to look into the life and belief of the natives. White men crazy? The natives live for life and take all they can out of it. They are aware that we are all here through no fault of our own but are here from the Great Spirit. Therefore no one has a right over another. Their desire is limited but when they want anything done for the benefit of all they all go and do it and no one owes another anything.

### Police Interested in Back Lot Football

Backyard football is getting the attention of police officers these days. The game is not proving of interest to the police-star gentlemen but the balls used are of prime importance in tracing the theft of three or four new footballs from the high school gym, warehouse.

### Police Interested in Back Lot Football

The rickshaws were stolen last week by someone who removed the bolts from the warehouse door hinges and removed the brand new balls.

## Briney Buys Bicycle Shop

Offers Handy Repairing Service For Every Need; Keys Made

C. E. Briney announces that he has purchased the business of the Torrance Cycle & Sporting Goods company, 1311 El Prado, from Mrs. Grace Leach.

Mr. Briney is well known in Torrance as he has made his home here for the past nine and one-half years, being engaged in the contracting business prior to his purchase of the bicycle and sporting goods store. He is thoroughly experienced in his new line of work, having worked on locks and keys for the past twenty years. He has also had extensive mercantile experience, conducting a general store in eastern Nebraska prior to coming to California.

The Torrance Cycle & Sporting Goods company carries a comprehensive line of bicycles, tricycles, wheel toys, sewing machine needles, shoes and sporting goods. Customers are made to order and automobile keys may be ordered by number.

"Ours is a handy store, performing a service for residents in Torrance and neighboring communities. Whatever needs fixing, bring them here," says Mr. Briney. "You'll find our work satisfactory and our prices reasonable."

Kilby of the Union Pacific System at Los Angeles, who is helping to celebrate National Apple Week, October 31 to November 6.

# Vote "NO" on \$13,300,000.00 POWER BONDS

**BECAUSE** the \$13,300,000.00 power bond issue to be voted on November 4th has absolutely NOTHING to do with the bringing of water from the Boulder Dam.

**BECAUSE** the official report for the year ending June 30, 1930, shows that the Bureau of Power and Light has on hand \$3,000,000.00 of unsoft bonds, and in addition \$4,238,027.11 in cash. This \$7,238,027.11 should be used before the taxpayers are asked to vote more bonds.

**BECAUSE** the same report shows that the Bureau of Power and Light has received \$3,720,050.61 from taxes paid by the people.

**BECAUSE** the Power Bureau pays no taxes the taxpayers pay the \$1,500,000 a year which, through exemption, the Power Bureau evades. Who can say the Power Bonds do not cost the taxpayers a cent?

**BECAUSE** taxes and assessments in Los Angeles are high enough and we must conserve our bonding capacity for the development of water, for schools, police and fire department requirements, sewers and other things that are real necessities.

**BECAUSE** LOS ANGELES HAS PLENTY OF POWER TO TAKE CARE OF ITS GROWTH FOR MANY YEARS TO COME.

**BECAUSE** next year you will be asked to vote from \$200,000,000.00 to \$250,000,000.00 in bonds for the Boulder Dam aqueduct. THIS IS THE BOND ISSUE THAT IS BEING WATCHED BY CONGRESS AND OTHER AUTHORITIES AT WASHINGTON AND HAS NOTHING TO DO WITH THE PRESENT PROPOSED BOND ISSUE.

This is Tax Bill Season—More Bonds Mean More Taxes  
**VOTE "NO" ON PROPOSITION "D" NOVEMBER FOURTH**
