Women's Club In Interesting Meeting Here

Committee Chairmen Give Reports on Various Phases of Work

"Rejoice in the Lord always and again I say rejoice."—Philippians 4:4 was the subject taken for the Bible lesson at the meeting of the Bible department of the Women's club Wednesday afternoon under the leadership of Mrs. R. A. Young, chairman of this department. This being near Thanksgiving time, Mrs. Young chose this verse and chapter because of the thanksgiving in it. She said that even in this time of depression we could rejoice in the Lord.

This department which meets from 1:30 to 2 o'clock on the second Wednesday of the month, is open to every woman who wishes to attend, whether a member of the club or not. Next month Mrs. Young will begin a series of studies on the women of the Bible.

The session of the club was given over to reports of various chairmen. Mrs. Russell Budge, chairman of co-operation with war veterans, reported on the conference of this department held in Los Angeles recently.

Essay Contest for Prize
Mrs. George Worcester spoke on the meeting of the International Relations department, of which she is chairman for the Torrance club, which was held last week at the Spanish American Institute at Gardena. She spoke of the work which is being done for boys of Spanish and Mexican parentage by this institute.

Mrs. Thomas Edmonds reported on the conference of the American homes department held at Exposition Park. She told of the prize which is being offered for the best essay on "What should a wife know about her husband's business." She said that several clubs in the district were trying for this prize. They appoint one member to write the essay, the prize money is given to the club. Mrs. Caroline Collins, president of the club, told of Book Week as being conducted in Torrance.

Mrs. LaGrande Barkdull, chairman of Motion Pictures, told of the work of this department in selecting approved pictures. Mrs. Barkdull asked the cooperation of the women of the club when Mr. Frank Higgins of the Torrance theater shows one of the pictures that are on the approved list.

Plea for Flowers
Mrs. Dewey Quigley, chairman of child welfare, spoke on the work being done for child welfare. She said that the big thing in the federation is what to do with the children of the broken homes. Sixty-five per cent of the children who are in Juvenile Hall come from broken homes. The Junior High Girls' Glee club sang two numbers. They were under the direction of Mrs. Margery Eischen.

Mrs. J. W. Post made a plea for flowers for the Torrance hospital, saying that Miss Esther Maxwell, superintendent of the hospital, had asked that when parties or luncheons were given and there were flowers left, that they be sent to the hospital as there were patients there without friends near who would be glad to have the flowers. Mrs. Willis Brooks is to sponsor a card party at the club house on the night of December 5 for the benefit of the club.

Dr. Maude Wilde, who is in charge of the Mothers' Educational Center, will be the speaker at the next meeting. Her topic will be "Modern Mothers." This is to be an open meeting and it is hoped that all women interested in child welfare will be present.

Legion Supports Red Cross Drive

State Commander in Urgent Plea for Memberships

World war veterans of California have been summoned to the colors for the annual roll call of the American National Red Cross by State Commander B. W. Gearhart of the American Legion. In directions to the 397 posts of his organization, Commander Gearhart points out that the period from Armistice day until November 27 has been designated for the Red Cross Roll Call and he requests every veteran to join up.

"The American Legion has been active in its support of the Red Cross Call to membership, and in order that this spirit of helpful cooperation may be continued and expanded, I appeal to you to bring immediately to the attention of every Legionnaire in our department the importance of rallying to this year's Roll Call," he said this week. "I know every Legionnaire, wherever possible, will avail himself of the opportunity to wear the insignia denoting that he has responded to this worthy cause."

Chamber Directors Endorse Wharf Plan

The directors of the Chamber of Commerce endorsed the proposed county wharf to be constructed at Redondo Beach, at their meeting last Monday afternoon. The wharf proposes to afford a fine location for fishermen who favor the Redondo waters for their sport.

Park Bond Issue is Proposed by Mayor

(Continued from 1-A)

recent years. We can put a lot of local people to work on it. We should do it right now.

"I am sure the people of Torrance will put over a bond issue to help out this unemployment," the mayor declared. "The people want it done now. The American Legion, one of the strongest backers of public recreational centers in the country, is back of it 100 per cent. I have talked with Earl Connor, commander of the local post, and he has assured me the Legion boys endorse the plan. The Chamber of Commerce this week took action to secure a playground for little children—they are back of it."

Adults Need Recreation
"There never was a time in the history of Torrance when land was so cheap as it is today. There never was a time to spend money better. I have never before urged the people and the city to spend money—but I do it now because I believe it is the only way we can help others who need assistance badly in this time of unemployment. For that matter, I believe the whole country should spend more money—put it into circulation and it will return profits untold to the individual, the community, state and nation.

"As machinery becomes increasingly important to men and industry, we must provide a means for men to enjoy themselves more away from the machine. We must give men and women, as well as the children a place for recreation—out in the open, with facilities that they can use and enjoy."

"There is only one place in the city where you can buy about 45 acres for a public park that is situated where it is easily available to everyone," the mayor continued. He did not describe where this site was, however.

Joint Meeting Monday
"In years to come you will have to go further and further away from the population center of the city to find a place for a park. I recommend the calling of a bond issue sufficient to buy the park land, beautify it and equip it as a park should be and I believe the people desire this action," Dennis concluded.

Each councilman then expressed his endorsement of the mayor's plan and Carl Hyde was asked details of the securing of petitions that are necessary to call a bond election.

Members of the council and the directors of the Chamber of Commerce will hold their quarterly round-table session Monday evening and it is expected that further details of the park project will be aired and decided on at that time.

Make reservations now for your Thanksgiving dinner at McKinley Inn. Phone 52-J.—Adv.

Weed Ordinance Again Bobs Up

Discussion - Provoking Law Given Regular Airing

That hardy perennial, the weed ordinance, again came up for airing in council meeting this week, was thoroughly discussed and laid back in its pigeon hole. It was the consensus of the councilmen, after the ordinance had been considered, that it was the best existing statute yet devised to curb the nuisance.

Mayor Dennis pointed out that the present ordinance calls weeds a fire menace and the cleaning of the lots is accomplished by money from the general fund at no extra cost to the lot owner. The councilmen agreed that this was a poor time to make the property owners pay any additional fees for this service. Attention was called to the fact that residents here get free garbage and rubbish collection service, a privilege that is enjoyed by few communities in this county.

Three Motherless Boys Badly Beaten

(Continued from 1-A)

car, but not before a neighbor saw Frost and recognized him. Officer Thompson said.

On the way to the scene of the attack, Frost gave his sons some candy. After they had been rescued early Sunday morning the boys said the candy "tasted very bitter and it put us to sleep." Police are now analyzing the candy to see if it had been drugged.

Youngest Acts as Guide
Arriving at the vegetable field in Lomita, Frost stopped the car and carried the boys to the field away from the road, according to reports of the case. Jackie is then reported to have awakened and was beaten into unconsciousness by Frost, as was his brother Fred. It is not known if the littlest, Torrance, was struck or not. Then Frost made his escape, Officer Thompson related.

About midnight, Torrance awoke and made his way home, arousing his grandparents who called the police and a local doctor. The small boy then guided police to where his two brothers were lying out in the cold rain.

Nothing is known of Frost's intention or whether he was temporarily insane, but police are investigating further.

VICTIMS HELP LAW
MARYSVILLE. — Stewed to the horns, a staggering herd of cows led Sheriff C. J. McCoy to a quantity of mash they had been eating. Now McCoy is hunting for the still.
