## COMMUNITY'S NEEDS TOLD AT MEETING

HARBOR CITY.—In a Hawaiian setting, 125 people were served at the Chamber of Commerce banquet Thursday night. The affair was planned as a get-acquainted meeting, and the dinner was followed by a talkfest in which officials and residents exchanged ideas on the needs of the community.

Councilman A. E. Henning spoke on improvement projects and unemployment. That the city budget was cut \$2,000,000 by the lowered county tax assessment this year made it impossible to erect new buildings or plan new improvements at this time unless by cutting down on service and he thought it better to maintain service. Nothing can be done on 257th street until the harbor sewer trunk lines are in as they will come in on that street, he said.

Two other fishermen, Tino Ramirez and Felix Ramirez, were sentenced to 10 days in jail after pleading guilty on three counts: taking abalones out of season, taking them out of shells below high water mark, and taking more than the limit. On the first two counts the court fined them \$50 or 25 days, and on the third \$25 or 10 days. Sentence on the first two charges was suspended for one year.

Arthur S. Guerin appeared as attorney for the men, Turnell pleading guilty to a charge of possession, and Hudson, who was charged with possession and transportation, demanding a court trial. Turnell was fined \$150 or 60 days, with \$50 and 60 days suspended for a year. As he was unable to pay the fine he was remanded to the county jail. Hudson's trial was set for Monday, February 16, at 10 a. m., in the local court.

## PROPER REFRIGERATION IMPROVES FOODS ... Winter or Summer

MANY OF our most pleasing foods are far more appetizing if they pass through a period of proper refrigeration before we eat them. Meats are tenderer, vegetables are crisper and of better flavor, milk is sweeter for a period of properly regulated refrigeration. This is true in Winter as well as Summer. The "cooler" is not to be trusted in a land where noon temperatures rise well above the 50-degree Danger-Line every day in the year. It is best to keep refrigeration, either ice or electrical, on the job, every day. Proper cooling costs less in Winter than in Summer. But it is equally important, and this is the more reason why we should stay good friends with our refrigerator, all Winter long.
