Now Is the Time to Build

Now is the lime to Build Never in the history of Los Angeles County has there been a better time to build than right now. Labor is plen-tiful and building materials are lower than they have been in years, and lower than they will be later on. Technity there appeared in the Torrance Heraid a large advertisement sent out under the sponsorship of the Los Angeles Chamber of Commerce, the chambers of commerce of the county, civic and business men's organizations and women's organizations, calling attention to the fact that now is the opportune time to begin building operations. Discussing the subject of building materials and a plenti-ful supply of the Los Angeles Chamber, said: "Strange as it may seem, most people fail to take ad-wantage of the low cost of building materials and a plenti-ful supply of labor and wait until a boom starts in before they begin to think of building now, when conditions are most peak and there will be a scarcity of skilled labor. "Those who start building now, when conditions are most to have a better building at less cost and they are going put money into circulation that will hasten the return of prosperity. Employ hocal labor, architets, engineers and contractors. Every man and woman in the community will benefit if you buy and build with local products."
