### Council Prepares to Cut Budget As Taxes Said Ready to Increase

(Continued From Page One)  
reported, with the Dominguez Land Company, owners of the acreage, for that company to file two post-dated warrants for the balance at \$4000 each year.  
**Two Measures Open**  
These particular items make it imperative and unavoidable that the council increase municipal taxes. There are, however, two measures open to the city officers to cut the governmental cost "to the bone". And it is entirely likely that they will take advantage of both. They are: To pare down heavily on general operating expenses of the city by ordering a minimum on the estimated costs of running the police and fire departments and of the city clerk's office. The second measure open to the council, according to a number of citizens who have been apprised of the budget proceedings, is to severely limit the cost of public works and conveniences in newly annexed territory to Torrance. Such a limitation on expenditures in outlying sparsely populated tracts would assist the city considerably in its announced program of economy.

The budget must be completed, adopted and the tax rate set by September 1.  
**Cabrillo Improvement**  
Another civic problem facing the council before the budget is formally adopted is: What to do about the proposed improvement of Cabrillo avenue? It has not been determined what method of payment will be used in the Cabrillo avenue improvement. Some taxpayers contend that they have paid for road improvement on that street and that the city should bear the cost out of its general fund for the contemplated widening and paving in strips not now improved. Others claim that the work will be of particular benefit to the frontage owners and that they alone should pay for the proposed improvement.

Mayor Dennis declared yesterday that he would have no objection to the city paying the cost of this work out of the general fund, but that a precedent would be thus established which might prove costly to the city in the future. He mentioned specifically, in this regard, that property owners on Sartori and on Cabrillo, south of Carson street, would then expect the city general fund to pay for improvements on those streets when the time comes for such work.

**Budget Figures Last Year**  
To those interested in city affairs, and all residents of Torrance are generally credited with an exceptionally keen interest in their community's problems and welfare, the monumental job ahead of the council may be visualized from the following figures. These represent the 1930-31 budget items and it is from these sums that the council expects to eliminate much "dead weight" in the form of expenditures deemed necessary, as yet the council has not reported any figures for the 1931-32 fiscal year. These will come at a later date. Here is the 1930-31 budget for which a 56 and 53-cent tax per \$100 realized the total of approximately \$153,800 for governmental expenditures:

**General Police Expenses**—totalled \$23,200, chief's salary, \$2,800; salaries of seven regular officers, \$14,700; two part-time officers (in Walteria and McDonald Tract), \$1,200; extra police for six months, \$900; judge of police court salary, \$1500; operating expense, \$8760, and equipment, \$400.  
**Other Departments**  
Last year the fire department cost the city \$12,765 to operate. This figure includes fire chief's salary of \$600; three firemen at \$175 per month, \$4800; call firemen (one extra for two months), \$3100; regular fire department expense, \$1300, and repairs to the fire truck, \$1265.  
The city clerk's office in 1930-31 had a budget allowance of \$12,200. This fund was divided as follows: City clerk's salary, \$2400; deputy clerk's salary, \$2100; stenographer's salary, \$1200; extra salary expenditure, \$100; inspection costs, \$600; city treasurer's salary, \$1000; city attorney's salary, \$2000; election expenses, \$500; auditing fees, \$300; general expense, \$1000; printing of ordinances, \$500, and general promotion, \$500.  
Torrance's engineering department cost \$7200 last year. This was divided: City engineer's salary, \$3900; assistant city engineer's salary, \$2400, and one stenographer and supplies, \$900.  
**Health and Sanitation**  
Compensation insurance for city employees at \$1700; lights and upkeep of city buildings, \$17,500; hydrant rentals, \$3000, and cleaning of vacant lots, \$1500, totalled \$22,700.  
Health and sanitation precautions to safeguard the city's population against contagion cost \$7250. This was divided into fixed expense for health and sanitation, \$4800; sewer expense, \$750, and sewer connections (labor and materials), \$1700.  
The street department's 1930-31 budget allowed \$37,300 for that work. From this sum the following expenses were noted: Side-walks and curb repairs, \$400; city yard, \$1200; at least 1000 street lamps; \$2000; general street expenses, \$900; street repair labor, \$5000; material, \$4500; cleaning, \$4500; parking maintenance, \$4000; alley cleaning, \$3000; utility repairing, \$2000; truck expense, \$500, and park department expense, \$6500.

**Probable Valuation**  
To these sums must be added the extra expenses of the final payment on the health center site, \$8000; Metropolitan-Water District

### Mullin Features One-Stop Service

New Type Lubricants Last As Long as Oil Change, Says Lubrication Expert

Maintaining that it is no longer necessary to lubricate a car every 500 miles, Arthur Mullin of Mullin's Lubrication Service, is featuring "One Stop" service.  
"The old idea," said Mullin, "was to lubricate a car every 500 miles. And it was necessary with the types of greases used. The tremendous pounding of metal against metal caused by road shocks forced ordinary grease out and left bare metal contacts. But the new scientific lubricants developed by the Pennzoil Company cannot be forced or wiped from bearings by the hardest shocks. They are oilier and more adherent. They maintain a film of lubrication on moving parts for a full thousand miles or longer."  
"Thus the extra stop for lubrication between oil changes is eliminated," Mullin concluded. "When a car owner has a crank-case drained and filled with Pennzoil, and the car completely serviced with Pennzoil Lubricants, he is equipped with a thousand miles of service without further lubrication." Mullin's "One Stop" Lubrication Service is located at Torrance boulevard and Border avenue.

**PUBLIC INVITED TO OEN MEETING OF PYTHIANS**  
Judge Charles F. Fricke is to be the principal speaker at an open meeting of the Knights of Pythias, Monday evening. The public is cordially invited to the program, which will be given at the American Legion clubhouse beginning at 8 p. m. There will be refreshments, entertainment and dancing during the course of the meeting.

**WAY OF WINE**  
By the United Press  
SANTA BARBARA. — Whoever owns a couple of kegs of grape juice in a local freight office had better not call for them. Bubbles around the bung showed they had turned to wine, and tests showed them to be alcoholic content.

**SNAKE PLAYMATE BITES CHILD**  
By the United Press  
MT. CARMEL, Pa. — Edmond Serfas, aged four, chose a copperhead snake for a playmate and was trying to pick it up when horrified adults rescued the child. The snake drove its fangs into the child's thumb, but there were no harmful results because of prompt medical attention.

### Program For Olympics Announced

Great World Sports Events Next Summer to Run 16 Days; Six Sites for Contests Will Be Used

All Olympic sport events, with the exception of the winter sports, will be held in and near Los Angeles for 16 consecutive days beginning July 30, 1932, according to announcement made this week by the Los Angeles Olympiad committee.  
Contrary to a number of reports heard here, the Olympics will not run all summer next year but will be run off in the set period between July 30 and August 14. The winter sports are to be held at Lake Placid, New York.  
**No Conflicts**  
The entire program has been worked out so that no two major events will conflict, it is reported. Frequently the spectators will be able to witness one sport in the morning, a second in the afternoon and a third at night by visiting the different places where the world's greatest athletes compete.  
According to the official announcement, the Long Beach Marine Stadium will be used for the rowing races; the Olympic Stadium (formerly called the Los Angeles Coliseum) will be the scene of the track and field events; the proposed Olympic Swimming Stadium, which is to be built adjoining the Stadium, for water polo, swimming and diving contests; the State Armory, for fencing, which is said to be the longest portion of the program; the Pasadena Rose Bowl, for the cycling contests; and the Olympic auditorium for the boxing, wrestling and weight-lifting events.  
In all there will be 135 different exhibitions of sports and athletic performances.  
**Opening Ceremonies**  
Events in which the nations of the world will compete are track and field; weight-lifting; fencing; wrestling; field hockey; cycling; modern pentathlon; yachting; swimming; gymnastics; boxing; rowing; equestrian sports; shooting; and the Olympic fine arts. Demonstrations of lacrosse and one of American football will also be given.  
Dignitaries and members of exalting royal families from all over the world, as well as the diplomatic envoys of these nations are expected to witness the Parade of Nations, the opening ceremony, in which 2000 sons and daughters of 35 nations, led by their respective flags, will participate in the march

### Relates Shipwreck

John P. McVicar, second officer, an watch when the liner Harvard grounded on the Southern California coast Memorial Day, who testified at a federal inquiry at San Pedro recently. Admission was made by McVicar, it was declared, that he knew the Harvard to be 17 points off her course, but that, except for calling the captain, he took no measures to prevent the vessel running aground. The Harvard went to its watery grave last Thursday.

**SEEK ST. EXTENSIONS**  
A report of the county affairs committee in connection with the proposed extension of Vermont and Normandie avenues, recommended that the County Board of Supervisors be requested to allocate \$51,775.75 for the work according to a report received from Los Angeles Councilman A. E. Henning this week. The committee's report was adopted by the Los Angeles council, Henning stated.
