CALIFORNIA... here we come!
1932 CALIFORNIA'S greatest tourist year

California's 1932 tourist business will be the largest in the state's history, according to chamber of commerce estimates. The Olympic games, the Shriners' convention and scores of other great events will attract hundreds of thousands of visitors from all parts of the world... What a glorious opportunity to impress our visitors by reflecting the old California spirit of optimism, initiative, faith, courage and confidence—the spirit of the Golden State's sturdy pioneers! Let us inspire our guests to broadcast to millions of friends and relatives the news that California is regaining a sound prosperity through constructive, cooperative effort... Start buying again. Build that new home. Purchase real estate. Replace all worn-out articles. Cooperate with business, industry and the banks of California by putting your dollars into immediate action. Every banked dollar releases 5 to 10 in credit for statewide industry. California can and should lead the nation back to better times.

Around the Council Table

Before the verbal fireworks began over the charges preferred against Mayor Klusman by Councilman Wright, as reported elsewhere in this issue, the city council transacted the following business:

A communication was read demanding that the council take immediate action to stop the alleged nuisance of flying dust and dirt caused by the carelessness of the contractor at the new Fern avenue school. The petitions were signed by 15 residents living near the school site. Councilman Steiner stated that he believed the contractor's men were needlessly rough in the handling of dirt, and in turning around their trucks on private property. On his recommendation, the city engineer was instructed to investigate the complaint in an endeavor to have the matter rectified.

Council agreed to guarantee the payment of lighting bills in the new headquarters of the Veterans' Relief Association on El Prado, in order to eliminate the necessity of putting up a deposit.

Bids were read for the purchase of two trucks for the street department. Quotations were as follows: Fargel Motor Sales Co., \$1011.80, \$1102, and \$695; Schultz & Peckham, \$749.92 and \$1252.28; and Rowland-Lindsey Company, \$1118.60 and \$670.60. The bids were referred to the department of public works to study and report back to the council at the next meeting.

Pacific Electric Railway was granted permission to install alarm signals in the fire department connecting directly with a new fire alarm system which is to be installed in the P. E. shops.

The Pacific Smelting Company, located at 22nd street and Western avenue, has been notified by the county health department that it must abate the nuisance of permitting poisonous fumes emitting from its plant before August 1, according to City Engineer Leonard. Residents living near the plant claim that the fumes are destroying trees and other vegetation. Councilman Steiner reported that the company is making arrangements which it is hoped will abate the nuisance.

The much discussed eucalyptus tree standing in the state highway at Madison street in Walteria is to be removed at once. Permission to take out the tree was given in a letter read from the state highway department, and Supt. of Streets Gasconne was instructed to remove the tree, which is said to be a menace to traffic.

County road department reported the receipt of deeds for the widening of Torrance boulevard near the Redondo city limits.

Council gave its approval of a letter to the Los Angeles city school board written by City Engineer Leonard, in which forceful protest against the construction of a cesspool at the Fern avenue school was made. The engineer's letter also pointed out the danger of laying pavement only 15 feet wide on streets bordering the new school. Dr. J. L. Pomeroy, county health officer, has also protested the construction of a cesspool and urged the school board to connect the school with the sewer line.

An ordinance establishing a 50-foot setback on Prairie avenue between 190th street and Riverside-Redondo boulevard was introduced, at the suggestion of the regional planning commission.

Boy Scout and Girl Scout troops will hereafter be provided with transportation by city trucks when on week-end outings, instead of relying on loans of trucks from private concerns. The decision to loan the city trucks, when not engaged on city work, was made at the request of officers of a number of organizations which sponsor the Scouts.

Councilman Ludlow reported that he had been successful in securing a reduction from \$300 to \$225 per year for the quarterly audit of the city books, from the firm of C. J. Rambo & Co.

Council asked the county board of supervisors for an appropriation of \$660 covering the cost of 275 days work in order to grade Fern and Eldorado streets adjacent to the new Fern avenue school. Councilman Steiner explained that the county only allowed \$2.40 per day for labor, but that he recommended that the balance of 96c per day be paid out of city unemployment funds in order to maintain the wage scale of \$3.30 per day paid to Torrance city employees.

Two radios were purchased from Harvel's and DeBra Radio Company at \$65 each and ordered installed in the police cars. The police car radios are especially constructed to pick up only police calls. Music and entertainment furnished by other stations cannot be tuned in. Councilman Conner explained. A letter from Police Chief Stocker of Los Angeles was read granting his consent to broadcast calls from Torrance police headquarters through the Los Angeles police broadcasting station.

Councilman Ludlow reported that the contractor at the health center building had informed him

Moore Leases Meat Market At Continental

Special Prices On Meats, Groceries and Vegetables Offered Fri. & Sat.

A. A. Moore announces that he has taken over the meat market in the Continental store at 1639 Cabrillo avenue, Torrance, formerly operated by C. M. Smith. It will hereafter be known as Moore's Cash Market.

Mr. Moore comes to Torrance from Gardena, where he has had charge of the meat department in the Midway Market. He has had 20 years' experience in meat cutting, having formerly been manager of meats in the MacMarr store at Alhambra.

"I will handle the same high quality young tender meats at all times, selling steer beef exclusively. Eastern pork and Armour's Fixed Flavor hams and bacon will also be featured," said Mr. Moore. A special opening sale is being conducted this week, and special prices for Friday and Saturday are advertised in the Continental Stores advertisement in this issue.

Anniversary Sale
Many exceptionally low grocery prices are also offered this Friday and Saturday by the Continental Stores, as high lights in the big Anniversary Sale now being held. Henry Urban, proprietor of the fruit and vegetable stand in the Continental Store is also quoting special prices on vegetables this week-end.

Scotch Miss Death Sentences

EDINBURGH, Scotland.—(U.P.)—No death sentence was passed in the Scotch courts during 1931, nor were there any executions, the annual report of the prisons department for last year shows. The commitments of prisoners of all classes, however, was 16,533 as against 16,616 in 1930.

Motor Fits Into Thimble
CLEVELAND.—(U.P.)—John Lakota is what could be called a "fine tooth" inventor. He has built a tiny electric motor that fits snugly in the inside of a thimble. It purrs smoothly and despite its diminutive size can pull a pound-weight across a smooth surface.

that he had let the work out to 15 sub-contractors, whose places of business extended as far away as San Bernardino, and that as far as hiring Torrance men, his (the general contractor's) hands were tied. Ludlow reported that he expected more favorable cooperation from the contractor on the Fern avenue school job, and advised those seeking work to get the addresses of the various sub-contracting firms from the Torrance Chamber of Commerce.

City clerk was authorized to write a letter to the county health department in an effort to get the city's yearly charge for health work reduced from \$1200 to \$1000.

Councilman Ludlow proposed that the council meet on the second and last Tuesday of each month instead of the first and third Tuesday, so that the city could close its books on the 25th and pay its bills for the current month between then and the last day of each month. An ordinance was ordered drawn to effect the change of meeting date. The next meeting, however, will be held on August 2nd, as the new ordinance cannot go into effect until that time.

The audit of the city's books as well as those of the Chamber of Commerce has been completed and is now in the hands of the finance committee, which will report back to the council at the first meeting in August.

Contract for the servicing of the city's ornamental lighting system was awarded the Torrance Electric Shop. By a gentleman's agreement the council agreed to hire the Torrance Electric Shop to do the work this year and next year give the work to the Two Macks Electric, whose bid was identical.

Application was ordered filed with the state railroad commission for the construction of a grade crossing at Santa Clara street, near the Soule Steel Company.

Latest Rhumba

First it was the Gorman stein songs, then the Cuban rhumba ditty, and now it's the Manila "Mabuhay" that is catching popular fancy. Mrs. Eleuterio Castaneda, descendant of a wealthy Spanish family in Manila, told about it when she arrived from the Philippines on the liner Shinryo Maru. It's pronounced "Ma-hoo-ye" and means cheerio, hello, goodbye or most anything else. And the song they've written about it is catching on, she says.

Aged French Trees Found

LE HAVRE.—(U.P.)—A tree census of Normandy discloses the fact that there are many multiceptenarians in the forests. A yew tree in the village cemetery of Saint Ursin (Manche) was planted 900 years ago. There is also a colossal yew tree 32 feet around at Blondiere which is known to have been growing in the seventh century.

Hoffman Moves Shoe Repairing Shop Back Here

Dave Hoffman, pioneer shoe merchant and repair man, has returned to Torrance, and this week opened a new and greatly improved store at 1501 Cabrillo avenue.

A few weeks ago, Hoffman moved his store from Sartori avenue to Los Angeles, but he says he's "glad to be back again among his old friends."

"Torrance has been my home for over ten years, and I didn't realize how much my family and myself were attached to this city until I left it. However, I have secured a much better location and am equipped to give the best of shoe repairing service," said Hoffman.

New low prices on shoe repairing are offered as an invitation to Mr. Hoffman's old customers to renew their patronage, as well as to attract new customers. First quality materials and the highest type of skilled workmanship is guaranteed.

NEW BEAUTY SHOP

Marie Ingram has opened a new beauty shop at 2642 Redondo-Wilmington boulevard, Lomita.
