CATHOLIC CHURCH OF THE NATIVITY

CHURCHES OF CHRIST, SCIENTIST

CHURCHES OF CHRIST, SCIENTIST
"I am the Lord, your Holy One, the creator of Israel, your King." These words of God as revealed to Isalah constitute the Golden Text in the Lesson-Sermon of "God the Only Cause and Creator" on Sunday in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass. One of the Scriptural solections in the Lesson-Sermon includes the verses from Isalah: "Hast thou not heard, that the everlasting God, the Lord, the Creator of the ends of the earth, fainteth not, neither is weary? there is no searching of his understanding. He giveth power to the faint; and to them that have no might he increaseth strength." Another selection includes the verses from II Samuel: "As for God, his way is perfect; the word of the Lord is tried; he is a buckler to all them that trust in him. For who is God, save the Lord? and who is a rock, save our God? God is my strength and power; and he maketh my way perfect."

Among the correlative passages from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, are the statements: "There is no power apart from God. Omnipotence has all-power, and to acknowledge any other power is to dishonor God."

Methodist Church
Tonight at the Methodist church
there is to be presented to the
people of Torrance a rare opportunity to enjoy an evening of unsuaul entertainment and education. Dr. Elmer E. Helms, for 12
years pastor of the First Methodist church in Los Angeles, is tolecture on his recent trip around
the world. The title of his lecture
is "What My Movie Camera Saw
Around the World."

His lecture will be illuserated
with motion pictures which he
took in all the countries visited
and a very-good conception of
many strange and unfamiliar lands
may be had from the lecture and
the pictures. Dr. Helms is a very
witty and engaging speaker and
the program tonight is one which
will-interest both old and young.

Kettle Hatches Turkey Brood

By Optometrist

Dr. A. M. Skeffington, noted lecturer and founder of the Graduate Clinic Foundation, recently completed a lecture course in Los Angelek. The group attending included Dr. Aiden W. Smith. Torrance optometrist.

Foremost in study was the new method of analyzing eye discomfort, by which each measurement taken is carefully combined in its perpective importance, toward the final treatment or prescribing or glasses.

While present methods generally used provide comfort, the new used provide a greater margin of ease for the eyes, regardless of the type of work they are required to do. Dr. Smith is enthusiastic over the possibilities of the new technique.
