C. C. M. O. Officer Pleased

G. A. "JERRY" MAXWELL, assistant to F. C. Ripley, manager of the Chanslor-Canfield Midway Oil Company and former Torrance city councilman, when informed of the opening of the Torrance National Bank, said, "I am indeed elated to learn that this splendid organization, which has been loyal to every constructive movement for the development of Torrance since the very inception of this city, is again in a position to continue its helpful work for the community."

Willingness to Serve
CLARENCE L. INGOLD, Optometrist, says, "The Torrance National Bank as a new institution in Torrance will be accepted as a needed and well-founded business from the minute its doors are opened, and will gain momentum as the future unfolds. To my mind, position and willingness to serve are—and will become more so—the main support of any business that is to survive through the future days. It is our pleasure and good fortune that we, as citizens, have this bank dealt to us as our banking institution. Giving us another avenue for expression of that community pride and personal interest, one for the other, so essential for a happy life."

Appreciates Courteous Treatment
SCOTT R. LUDLOW, says, "Government permission to open on an approved plan has made it safe, insured deposits, and because of this fact, together with the very courteous treatment given me, I will continue my account with them."

Pessimists Should Reform
TORRANCE PLUMBING CO., By F. L. PARKS, says, "I have always said our bank would open and am very happy for everyone concerned. But my big wish now is that some of our pessimists will reform. Very best wishes."

Koch's Are Happy
KOCH'S FAMILY SHOE STORE, says, "We are very happy to have the Torrance National Bank re-opened. Congratulations!"

THOUSANDS KILLED OR INJURED EVERY YEAR BY BLOW-OUTS

Every year thousands of motorists are killed or injured when blow-outs throw cars out of control. Today automobiles are geared for high speed driving, and at speeds of 40 or 50 miles an hour, terrific heat is generated inside tires. This causes rubber and fabric to separate. A tiny heat blister forms and grows until finally the tire blows out.

Realizing the urgent need for a tire that would really give motorists blow-out protection, Goodrich engineers invented a special construction called the Golden Ply, which resists heat and keeps the rubber and fabric from separating. This construction is built into every Silvertown Tire and actual tests on the world's fastest track prove that it makes motorists 3 times safer from blow-outs at high speeds.

THIS NEW TUBE WON'T TEAR Even when run Flat!

THIS NEW TIRE MAY SAVE YOUR LIFE!

GOLDEN PLY INVENTION PREVENTS GREAT, UNSEEN CAUSE OF BLOW-OUTS

Blow-outs never give warning. Your turn might come any day, according to statistics. But now you can avoid this danger—prevent the great, unseen cause of blow-outs before it begins. The Life-Saver Golden Ply, built into every new Silvertown, resists the terrific heat generated by modern high-speed driving. Rubber and fabric don't separate. Thus your Silvertowns remain free from tiny heat-blisters inside the tire. And when destructive internal heat is controlled, tires last months longer.

No extra cost! Yet this extra safety and mileage is free! Safety Silvertowns cost not a penny more than other standard tires. Come in and let us put this priceless protection on your car.
