OFFICIAL PAPER OF THE CITY OF TORRANCE
Adjudicated a Legal Newspaper of Los Angeles County, Superior Court Case No. 218470, Dated March 22, 1927.

FIRST FDIC PAY-OFF

Mrs. Lydia Lobsiger is a widow. Her savings, after four years of depression, amounted to \$125,000 deposited in the Fond du Lac State Bank at East Peoria, Illinois. The bank was closed by the state authorities last May. In the old days, Mrs. Lobsiger would have to wait a long time for her \$125,000, with very little hope of getting back more than a fraction of it.

Now the Federal Deposit Insurance Corporation has taken charge of the first bank to fail since the corporation began operations. Mrs. Lobsiger has received check No. 1 from the temporary new bank set up by the corporation in accordance with the law. In addition to Mrs. Lobsiger, 1788 other depositors will receive the amount of their deposits under the new law. When the bank failed, the limit was \$2,000. It has been raised to \$5,000.

The amount to be paid by the corporation in this particular instance is approximately \$125,000, which is expected to be recovered from the assets of the bank. Even should the assets be worthless, this obligation would be almost negligible as compared with the corporation's capital of nearly \$300,000,000. It is reported that only two insured banks—the one in East Peoria and another whose affairs have not yet been arranged—have failed during the six months of 1934. This, as the New York Times has noted, compares with an average of 417 bank failures during the first six months of the ten years up to 1933. This conservative newspaper concludes with, "while many other factors have played a part in the highly favorable record of the last half year, the temporary plan seems clearly entitled to part of the credit."

Coonan Promoted to General Supt. Of A. & P. Pacific Coast Division

The promotion of J. J. Coonan to general superintendent of the Pacific Coast division of the Great Atlantic & Pacific Tea Co., with headquarters in Los Angeles, was recently announced.

Coonan started with A. & P., the world's largest food retailers, as a clerk in their eastern division 20 years ago, and his advancement to the head of the Pacific coast unit comes as a reward for ability and loyal services over the period of a score of years.

Ingenious Devices Intrigue Public At Inventors Exhibit

The Society of American Inventors will sponsor during Market Week, from July 30 to August 4, 1934, the "Progress of Science Exhibition" to be held at the Platt building, 830-834 South Broadway, Los Angeles, where inventors will be privileged to display their "children of ingenuity."

Almost everyone knows the tremendous and far-reaching contributions which have made to his well-being and advancement, and although he may be totally unaware of its processes, he enjoys the benefits of its achievements in his every day living.

Aviation, radio, television, sound pictures, rapid travel and national and international communication, the exploration of hitherto unknown lands and realms—all are opening brave new worlds of action—enticing vistas little dreamed of yesterday.

The impression should not be gained, however, that the exhibition will be so scientific as not to be understood by the average man on the street, but on the contrary will be highly entertaining and instructive.

This is one of the eight exhibitions which will be in progress during Market Week, sponsored by the Los Angeles Chamber of Commerce, but, unlike the Trade Shows will be open to the public.

CHRISTIAN SCIENCE CHURCHES

"Lead me in thy truth, and teach me: for thou art the God of my salvation; on thee do I wait all the day." These words from Psalm xxxv are the Golden Text in the Lesson-Sermon on "Truth" on Sunday in the First Church of Christ, Scientist, in Boston, Mass.

One of the Scriptural citations in the Lesson-Sermon cites these verses from Mark: "And they brought young children to him, that he should touch them: and his disciples rebuked those that brought them. But when Jesus saw it, he was much displeased, and said unto them, Suffer the little children to come unto me, and forbid them not: for of such is the kingdom of God. Verily I say unto you, Whosoever shall not receive the kingdom of God as a little child, he shall not enter therein."

A correlative passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, states: "Jesus loved little children because of their freedom from wrong and their receptiveness of right. While age is halting between two opinions or battling with false beliefs, youth makes easy and rapid strides towards Truth."
