

Kill Stale Odors In Ice Box With New Free Device

A new kitchen utility appliance, the Cleanaire food conditioner, is being given away absolutely free by the Torrance Electric Shop...

This free device stifles the slightly stale odors that inevitably arise from adjacent meat dishes and vegetable dishes when placed in an ice box.

By using this device it is possible to keep the ice box sweeter and hence more sanitary as well as preventing food losses in perishable foods.

The Torrance Electric Shop is allowing people to check their own ice boxes with the Cleanaire with the end of stimulating additional interest in the new Westinghouse refrigerator.
