## Paris Styles

By MARY KNIGHT United Press Staff Correspondent

PARIS. (U.P.)—Parisians are getting American shoe conscious. They never realized before how comfortable a foot could be, given the proper space for toes to live and breathe and have their being! To prove it, Ann Blatt showed all her winter clothes accompanied by a new line of American shoes on her French mannequins. The mannequins admitted, after hours of jangling back and forth, that they were not even tired, whereas usually after the first exhibition lasting only an hour or so, they were ready to drop in their tracks.

One of the smartest of the season's shoes coming from that auld cuntry and being worn in gay Paris is a pierced suede shoe. The young French - moids and matrons find equally satisfactory, brown patent and black kid - worn with the new "relief knits" (and what a real relief they are from most that you see about town) in the same colors. Parisiennes particularly like the delicately curved heel of the American shoes, rather than the more straight and less attractive heel of the majority of French shoes. Also the long vamp gives the foot a more aristocratic line, which these French - moids and matrons find equally satisfactory.

TODAY'S FASHION TIP Parisiennes becoming American shoe conscious—they like the delicately curved high-heel and the longer vamp—comfortable and chic.

## Special Session Of Legislature To Be Called Soon

State Assemblyman John T. Rawls of San Pedro, asked the Herald yesterday to express to the voters of this district his sincere appreciation of their support in the recent primary. Rawls was defeated for the Democratic nomination by the Epic candidate, Fred Reaves, but he thanks all those who stood by him in the campaign. According to Rawls, it is quite probable that a special session of the state legislature will be called in the next few days to consider special unemployment and tax relief measures.

His statement followed a conference Sunday with Assemblyman Kenneth B. Dawson, 22nd district, of San Francisco. Assemblyman Dawson visited Mr. Rawls, the latter said. Dawson told of recent conferences held in the northern part of the state, and declared that a special session will be called at once, Rawls reported. Such a special session has been advocated for several weeks past by Assemblyman Rawls. Prime object of such a meeting of the legislature would be to promulgate new unemployment relief plans and appropriate more funds with which to finance them. Another tax moratorium and "10-day plan" for payment of taxes has also been advocated.

L. A. CLUB COMING The Torrance Kiwanis Club will have as their dinner-guests next Monday evening a delegation from the Los Angeles Kiwanis Club, and a good meeting is expected. On September 24 the local club expects to have as its speaker, Darsie L. Darsie, well-known sports writer.

radios completed and boxed ready for mailing." Paul is a graduate of Kearney high school and hopes that profits reaped from the sale of the radios will provide the necessary finances for a course in electrical engineering in college.

## Pocket Radios Enrich Youth

KEARNEY, Neb. (U.P.)—Pocket radios, made entirely by hand, during candle-light hours, have been put on the market here by Paul Beshore, inventor, producer and distributor. Not yet 20, Beshore started his inventing career at an early age, building his first radio at 10. He has continued with his inventive genius until now he has brought it to the stage where it is yielding profits.

For the past six months every member of his family has been kept busy making the pocket radios, trying to keep up with the orders which come rolling in every day. The tiny radio consists of a box, four by two inches and about one inch deep, with one dial on the face of it, a single earphone and two other cords, one an aerial and the other the ground. The invention is a complete success. Beshore even has engaged the medium of national advertising in magazines, and has received many orders from all parts of the United States.

When the orders come in too fast, the boys in the family find it necessary to stay up all night working on the radios. "I came downstairs one morning," Paul's mother said, "to find the boys still working and with 32

Custard Sauce A wonderful sauce for any pudding. 3 egg yolks 1/4 teaspoon salt 1/4 cup sugar 2 or 3 cups milk 1 teaspoon vanilla Beat egg yolks, add sugar and salt, and beat well. Add milk, and cook slowly in double boiler, stirring constantly until thick. Add vanilla when done. Chill and serve on warm prune whip. The bureau's testing kitchen does not devote all its time to the sweet things in life, for here's a recipe for browned rice—not brown rice—just ordinary white rice so cooked that it acquires a rich, golden brown complexion. "Browned Rice Grand with fowl or pot roast. 1/4 cup rice 2 tablespoons oil 2 cups boiling water Wash rice in sieve with cold water until water runs clear. Brown to golden color in oil.
