

Aged Couple Are United In Death

United in death as they were in life, double funeral services were held Monday afternoon at 2 o'clock for Sherman Emanuel Heidelbaugh and his wife, Mrs. Jennie Heidelbaugh, from Stone & Myers chapel, Rev. Kemp J. Winkler officiating.

Mr. Heidelbaugh passed away at his home, 723 Columbia court, on Monday, September 17; Mrs. Heidelbaugh on Friday, September 21. Both had been in poor health for some time.

They are survived by one son, Franklin Heidelbaugh, of the same address.

Interment was made at Inglewood Park cemetery.

NEW MANAGEMENT

Mrs. Irene Tucker has taken over the management of the National Hotel, 1725 Abalone avenue, located south of the National Supply plant. The hotel was formerly under the management of Mr. and Mrs. Ed Meador.

CHURCHES

"GO TO CHURCH SUNDAY!"

FIRST CHRISTIAN
Engracia at Arlington avenues. Phone 77-M. George Elder, pastor. 9:30 a. m., the church school meeting in several assemblies with classes for every age. Scott R. Ludlow, superintendent.

Morning service, 10:50 o'clock. Sermon by Dr. Jesse R. Kellems. Evening service, 7:30 o'clock. The evangelistic service. A song service that will delight you; several special musical numbers, baptisms, message by Dr. Kellems.

6:30 o'clock Sunday evening, young people's Christian Endeavor. Revival services each night (except Saturday) led by Evangelist Kellems. The public is cordially invited to any or all services.

CHURCHES OF CHRIST, SCIENTIST

"Reality" is the subject of the Lesson-Sermon on Sunday in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass. The Golden Text is from Philippians: "Whatever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are lovely, whatsoever things are of good report; if there by any virtue, and if there by any praise, think on these things."

The words of David, from II Samuel, are among the Bible citations in the Lesson-Sermon. "As for God, his way is perfect; the word of the Lord is tried; he is a buckler to all them that trust in him." The words of Jesus, from Matthew, are included also. "Be ye therefore perfect, even as your Father which is in heaven is perfect."

A correlative passage from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, states, "When we learn in Science how to be perfect even as our Father in heaven is perfect, thought is turned into new and healthy channels,—towards the contemplation of things immortal and away from materiality to the Principle of the universe, including harmonious man."

METHODIST EPISCOPAL CHURCH
El Prado and Manuel. Kemp J. Winkler, pastor.

9:45 a. m., church school hour. Leonard Snyder, superintendent. A class for every age group.

11:00 o'clock, morning worship hour. Sermon by the pastor. "Why Do We Hold On to Christ?"

6:30 p. m., Epworth League hour for young people.

7:30 o'clock, evening service. Mr. and Mrs. Winkler will speak on "The Quest of a Thousand Christian Youth" followed by a significant communion service.

Official board meeting, Tuesday evening, 8:30 p. m.

FIRST LUTHERAN CHURCH
Acacia avenue and Sopoma street. Frank D. Mechliff, pastor. Phone 591.

Sunday school, 9:30 a. m.

Morning worship, 10:45 o'clock. Sermon topic, "Ministers of the Spirit."

Bible school for juniors Saturday at 10:00 a. m.

Holy communion on Sunday, October 14.

Revival Services At Christian Ch. Grow In Interest

The Dr. Jesse R. Kellems evangelistic services now in progress at the Torrance Christian church, are growing in power every day, both numerically and spiritually, according to Rev. George Elder, pastor of the church. The pastor said: "The attending crowds, inspiring music, the travel picture-lectures, the masterly sermons, the earnest exhortations, confessions of faith and baptisms, characterize these special meetings nightly." The meetings are scheduled to close next Sunday night.

Next Sunday, September 30, is being promoted as "Promotion Day" in the church school, beginning at 9:30 a. m. sharp. Several departments will be represented in special exercises at which time many will receive promotion certificates.

Dr. Kellems will address the Men's Bible Class meeting in the Torrance theatre upon current topics. The class session begins promptly at 9:30 a. m. L. W. Dillard will have charge of the musical program at this special session.

Dr. Kellems will occupy the pulpit at the Christian church both morning and evening next Lord's day.

CENTRAL EVANGELICAL CHURCH
Marcellina and Arlington avenues. O. D. Wonder, minister.

Rally and promotion day. Sunday school rally exercises at 9:45 a. m. W. E. Bowen, superintendent.

Rally day for the church at 11 a. m. Sermon by the pastor. Christian Endeavor rally at 6:30 p. m.

Evening services at 7:30 o'clock. The Christian Endeavors will be in charge.

Midweek services, Wednesday at 7:30 p. m.

On Thursday evening, October 4, the Men's Brotherhood will entertain the ladies of the congregation at a social in the Guild hall.

REVIVAL AT THE FIRST BAPTIST CHURCH
Corner Martina and Carson. Rev. John B. Speed, pastor. 1827 Andree avenue. Phone 148.

Sunday school, 9:30 a. m.

Midweek service, Wednesday, 7:30 p. m.

CHESS
By A. L. PAUL

Such increased interest and enthusiasm has been manifested in the activities of the Torrance Chess and Checker Club that it is found necessary to meet Monday and Friday evening of each week. The club has now been granted permission to use the committee room of the Chamber of Commerce. The hours of meeting are from 7:00 to 11:00 o'clock. Everyone is welcome.

The value of the study of chess as an educational feature as well as a recreational feature has recently been exemplified in the inclusion of the Torrance Chess Club as a regular activity in the Torrance night school curriculum.

The analysis of the writer's game with the British women's champion continues. White, A. L. Paul; black, Mrs. B. G. Hollis:
8. P-K2 N-Q2
9. N-Q4! Q-R4
White's move, more than attacking black's B, sets in motion the K-side attack. If 9... NxP: QxN! forking both H and R. Black, after the next move, threatens QxK! and BxN which would in turn prove embarrassing for white.
10. Castles BxN
11. PxN QxKP
This is a clear gain of material for black and the P at white's Q3 is also threatened which would in turn endanger his QR. However, it will be noted that while black has been busily engaged in gaining material, white has compensated by obtaining advantage in time and space with more freedom of his pieces. Qb to KB4 or even to QR3 will provide still further tempo and two open files for the posting of both R's, while black's QB and QR remain out of play and castling is retarded.

12. B-KB4 Q-B3
It should here be pointed out that 12... QxP! would be very risky.
13. QR-K1 P-KR3
White's last move completes the process of "fixation" by which he retards black's development.

Black's last move was in the nature of a forced weakness as white threatened B-KN5.
14. B-Q5 N-N3
Here, white's move serves a double purpose. Black can only turn his (or her) attention to the delayed development of the N and B. By white's move the N move is deprived of any effectiveness. Again, white now starts the "breaking through" process by moving deep into enemy territory.

G. A. L. inquires, "What is a Gambit?"
A Gambit is a term applied to an opening in which a pawn is sacrificed to gain some immediate advantage. In the King Gambit, the oldest form of chess opening known, the KBP is sacrificed on the second move to obtain an open file through which the KR could operate against black's KBP after castling. The more modern Evans Gambit and Queen Gambit De-clined are deemed to permit quick development on the Queen's side. The term Gambit was introduced by the Spanish priest, Cardinal Ruy Lopez, in the 16th century. It was derived from the Italian word "gamba," meaning trap, or snare. This, the Gambit is an opening leading to a game of dangerous traps and cunningly devised coups and snares.

Word has come from Syracuse to the writer regarding the completion of the Master Tournament there. Reshevski, one of the younger satellites, defeated Kashdan, the latter being the prospective contender for the United States championships. Kashdan is shortly to match Frank Marshall, the present champion.

Last week the Torrance Chess Club enjoyed the pleasure of entertaining new members in the persons of Messrs. Montague, Lepkin, Bay and Pix, all of Torrance. Welcome, gentlemen. May you enjoy bigger, more and better chessmates!

A lively and enthusiastic group of players have met weekly for chess play at Lomita for the past three years. We would like here to extend a warm invitation to visit the Torrance Chess Club at their earliest convenience. The Torrance Club will assure the

Ford to Produce Own Steel In New \$12,000,000 Plant

DEARBORN, Mich., Sept. 27.—Henry Ford is today in full swing on the final move that will give his industry an absolutely independent supply of the 36 different kinds of special steels which it requires.

The move involves the building of two huge new steel mills, installation of a vast amount of special machinery and sufficient additions to his present power equipment to drive the new mills. The construction will require eight months to complete and will cost between \$12,000,000 and \$13,000,000.

STORY 1
Continued from Page 1

When the new mills are ready, Ford can produce 3000 cars a day without buying a pound of steel in the market.

He will have attained a position, so far as steel supply is concerned, achieved by no other private manufacturer in the world. All other great manufacturers using steel are dependent on outside producers—even the great European and American ordinance and railroad equipment manufacturers.

Ford's move will tend further to make the Detroit area a great steel-producing district by the addition of 1500 tons of finished steel a day.

Workers have already nearly completed the sinking of the foundations for the foundations of the two big mills which will be erected to the east and west of the present open-hearth and steel-mill buildings. That to the east will be a continuous cold-strip mill capable of turning out sheets up to 84 inches wide; that to the west a continuous hot-strip mill, turning out strips 48 inches wide.

Built of steel and brick in the same design as the present steel-mill, the new buildings will provide 229,400 square feet of floor-space, and this, together with 61,500 square feet of floor in the present buildings will be required for the new operations. They will provide steel sheet for Ford bodies and frames.

The buildings alone will cost \$650,000. Into them will go special machinery and equipment costing more than \$6,000,000—a 51-inch blooming mill; huge reheating furnaces, roughing mills; hot finishing mills, cold mills, 500 feet of continuous pickling tanks and several annealing furnaces. The plants will give employment to 500 additional men.

different, and the McAduo plan is designed to provide for the working man's old age. The plan requires that after adequate wages are paid to labor, as a part of operating costs, and reasonable dividends are declared on invested capital funds, the surplus remaining be divided between labor and invested capital on an equitable basis. Labor's portion would take the form of a reserve for unemployment and retirement.

"This program would be advantageous, as far as it goes, but the professional man is not represented in it. He merits inclusion in a program providing against lack of occupation and retirement."

The improved condition of American business is shown by the financial reports of industrial corporations issued during the past month, according to Giamini. He pointed out that 250 American concerns reported net profits of \$276,563,000 for the first half of this year, as against profits of \$36,362,000 for the first half of 1933.

"This improvement in earnings means a greater purchasing power, and greater employment for the nation," said Giamini. "There should be further stimulation of employment in the building trades and of activity in the durable goods industries through the operations of the National Housing Administration in co-operation with private lending institutions.

"We are already making bank loans for modernizing homes, business properties and farm buildings," he said. "In the near future, the second part of the Housing Plan will be under way, permitting banks to lend up to \$16,000 for new building and for refinancing existing mortgages with a government guarantee of the loans. This should further improve the situation in the building trades."

"In order to get this country on a prosperous basis it is necessary to have adequate employment, ample food, satisfactory housing and old age provision for its people." President Roosevelt is doing his best to bring these things about, and for that reason he deserves the support and co-operation of every loyal American."

Legislation Is Needed To Cope With Problems

California League of Municipalities Urges Commission Be Appointed

The League of California Municipalities of which Torrance is a member, today came forward with a suggestion to the board of supervisors for procedure in coping with the county's charities problem. The league urged that steps be taken for new legislation, if required, so that it could be brought before the next session of the state legislature.

"We believe the major problem is two-fold," the league's letter stated. "First is the rehabilitation of the financial structure of the state. Second is the development, in co-operation with the federal government, of an adequate program for relief of unemployment."

"Our thought is that a carefully-planned program for financial rehabilitation and administrative re-organization should be prepared as the first step in an intelligent approach to a solution of the difficulties.

The League of California Municipalities respectfully urges that you appoint a special commission to undertake the preparation of such a program without delay, so that the next session of the state legislature may promptly enact the first findings of the commission into law."

Red Cross Asks Donations For Nome Sufferers

Reports from Red Cross officials in Nome, Alaska, tell of intense suffering and loss caused by the fire of September 17 which razed the entire business and half of the residence section.

Many families lost all their possessions and are homeless.

As cold weather is rapidly approaching, Nomes will soon be cut off from all sources of navigation except aerial transport.

The American National Red Cross has obtained limited funds available for emergency help but more will be needed before the needs are taken care of.

Contributions for a Nome relief fund may be sent to the Los Angeles Chapter, American Red Cross, 1816 Sixth Figueroa street.

Offer Right-of-Way For Vicente Drive

The county road commissioner this week had under advisement the request of the Redondo Beach Chamber of Commerce to construct the proposed "Vicente" drive from the Palos Verdes coast road near Point Vicente lighthouse along the south edge of the San Pedro Hills overlooking Portuguese Bend, Catalina Island and the south seacoast.

A 150-foot right-of-way has been offered the county without cost, the chamber said. It was informed, and such a project, similar to Palos Verdes drive, just completed, would provide employment for several hundred men over a long period of time.

Funeral Services For W. S. Welander

Walter S. Welander, age 82 years 5 months and 17 days, passed away at his home, 21201 Balsa street, Keystone, Monday, September 24. Funeral services were held this afternoon at 2 o'clock from Stone & Myers chapel, the Odd Fellows lodge of which he had been a member, in charge of the rites.

He is survived by his widow, Mrs. Sarah Welander, and five sons.

GARAGE DESTROYED BY FIRE MONDAY

The Torrance fire department was called to the McDonald tract Monday afternoon where a pumping plant, house and garage, belonging to A. Magel, were damaged by fire. The garage was destroyed but the department was able to save the other property.
