Paris Styles

By MARY KNIGHT
United Press Staff Correspondent
PARIS (U.P.)—Jenny has glorified the pleat—nor is she partial in her pleadings. She does it the right way of the material and makes them sun, acordion and flat.
Sometimes she does a whole back of a skirt in pleats, other times she puts little groups of them around the bottoms of the afternoon skirts so that when the legs march back and forth, little fans flit around the ankles.
In ensembles, two-thirds and three-quarter coats prevail over shorter or longer types. Velvet edged with fur takes the hottest biscuit while others edged all the way around and up the front with faille are worn over a tight slit skirt.
As for front décolletages here, you can take your extremes; either bring the material up to your chin and flat. Her evening décolletages feature extremes and colors run to grays, blues, black and white and spangles.
TODAY'S FASHION TIP
Jenny goes in for pleats in a big way—sun, acordion, boxed and flat. Her evening décolletages feature extremes and colors run to grays, blues, black and white and spangles.
As for colors—all the grays you can think of thunder-cloud to a mild bad temper; blues from rainy Monday to the heavenly blue of a sunny Sabbath; black and white, if you call them colors, and lots of spangles, in gold and silver.

Mrs. McCulloch Speaks at P. T. A. Meeting

Mrs. F. C. McCulloch, outstanding worker in the state parent teachers Association and a member of Tenth District, was enthusiastically received by members of the Elementary Parent Teachers group at their meeting in the school bungalow Tuesday afternoon.

Mrs. McCulloch chose to talk on "Leadership," a very important need in all communities and in organizations. To be a leader one must have personality. We ask ourselves, "what is personality?" There are many definitions, so let us think of personality as the peak of a triangle. The three sides represent the physical, mental and spiritual development of the individual. If any one of these sides falls short it does not make the right peak or the true personality. It is true, all people do not have the same heritage, but in this day of ours it is possible to keep ourselves clean and physically fit. We can and should interest ourselves in the things our families enjoy. We should study the issues of the spiritual side that we can see the good in everyone and not condemn people's petty faults or discuss our friends and neighbors. The world had three great leaders, the Christ, Lincoln and Moses. True, the first two were murdered, but even death did not take away their personality always referred to as light. Then your personality is your light. Let it shine, be a good leader. Poets refer to light as the symbol of truth and the shadow of God.

Mixing Is Secret Of Making Delicious Cakes With Lard

Can you make a cake with lard? Yes, most successfully, says Inez S. Wilson, home economist, "but the secret's in the mixing." Since there is absolutely no taste of lard in the finished cake, home-makers are taking advantage of the low cost of lard as compared with other fats for shortening and are using it for cakes. Excellent results have been obtained by the method of combining ingredients worked out in the laboratories of the Institute of American Meat Packers. Here's the way:

- ### Method of Mixing Lard Cakes
1. Sift flour, baking powder, and salt together. (Since lard contains no salt, the flavor of the cake is improved by the addition of salt, in the proportion of $\frac{1}{4}$ teaspoon for each cup of flour.)
 2. Cream well $\frac{3}{4}$ of the sugar with the lard, and 2 tablespoons of the liquid.
 3. Separate egg whites and yolks. Add yolks to milk.
 4. Add flour mixture and milk alternately to the creamed fat and sugar. (Flour should be added first to prevent separation of creamed mixture.)
 5. Beat egg whites until stiff but not dry. Add sugar to beaten egg whites and beat only until sugar disappears.
 6. Fold egg whites into cake mixture.
 7. Flavor and bake either in layer or loaf at 350° F.

Any good cake recipe may be used, the only change necessary being the addition of salt. The same amount of lard as other fat is used. A favorite recipe using lard is the one suggested below:
Play White Cake
1/3 cup lard
2 cups flour
2 1/2 teaspoons baking powder
1/2 teaspoon salt
2 eggs
1 cup sugar
1/2 teaspoon almond flavoring
3/4 cup milk
1 teaspoon vanilla
Combine as described above. This makes a small two-layer cake.
