## We Are Proud to Go Forward with Ford in 1935

In the same faith that Mr. Ford believes in improved business conditions for all America, we believe that our city is on the threshold of a new and greater prosperity. As Ford dealers, we pledge our whole-hearted efforts to the achievement of this community-wide condition.

Mr. Ford's faith in America's economic come-back is indicated in commitments for 1935 exceeding \$415,000,000, benefiting thousands of industries and hundreds of thousands of people throughout the length and breadth of this land.

In identical sense, every step of progress we make here will reflect itself in almost every channel of local trade, and in local employment entirely. Since Mr. Ford is making it possible for us to offer the finest car he has ever built, our declaration is enthusiastic and emphatic. We will go forward with Ford!

### You Said It, Mr. Ford!

If all of us tend to our own business and work at it, the depression will soon be over. You never made a truer remark in your life. We're with you in this forward movement, . . . hitting on all eight!

We also wish to extend our heartiest thanks to our patrons during the past year and to wish them much prosperity during the coming year.

### We're Happy About 1935 Too!

It looks like a big year to us. If we don't do more business than we've done in a long, long time, we will be greatly disappointed. We have a hunch that neither you, Mr. Ford, nor we will have any business blues at the end of this coming year.

And to all the kind friends who have favored us with their patronage during the past year, we extend our hearty thanks.
