

### Collectors Buy Ungummed Stamps

Postmaster General James Farley's decision to permit the sale of unguummed stamps of various issues on the market for the benefit of stamp collectors has caused a big boom in the market. The sale will bring approximately \$5,000,000 to the government, since this type of stamp is in demand from collectors.

A considerable boom was created some time ago by the action of Farley in providing sheets of certain stamps for the market, which stamps, which immediately caused a big boom in the market for the stamps which had previously been sold in the regular way and had received no special attention.

In order to satisfy the collectors, the postmaster general issued a new stamp, which collectors immediately seized upon as the most desired stamp from the Philatelic Agency of the post office department in Washington.

The following issues will be on sale March 25:

| Issue              | Price      | Price  |
|--------------------|------------|--------|
|                    | Full Sheet | Block  |
| Washington         | \$3.00     | \$3.50 |
| 1-cent C. of Post  | 3.25       | 3.50   |
| 2-cent C. of Post  | 6.75       | 7.50   |
| 3-cent C. of Post  | 6.00       | 6.75   |
| 4-cent C. of Post  | 6.00       | 6.75   |
| 5-cent C. of Post  | 6.00       | 6.75   |
| 6-cent C. of Post  | 6.00       | 6.75   |
| 7-cent C. of Post  | 6.00       | 6.75   |
| 8-cent C. of Post  | 6.00       | 6.75   |
| 9-cent C. of Post  | 6.00       | 6.75   |
| 10-cent C. of Post | 6.00       | 6.75   |
| 11-cent C. of Post | 6.00       | 6.75   |
| 12-cent C. of Post | 6.00       | 6.75   |

| 40-cent C. of Post | 6.00       | 6.75   |
| 41-cent C. of Post | 6.00       | 6.75   |
| 42-cent C. of Post | 6.00       | 6.75   |
| 43-cent C. of Post | 6.00       | 6.75   |
| 44-cent C. of Post | 6.00       | 6.75   |
| 45-cent C. of Post | 6.00       | 6.75   |
| 46-cent C. of Post | 6.00       | 6.75   |
| 47-cent C. of Post | 6.00       | 6.75   |
| 48-cent C. of Post | 6.00       | 6.75   |
| 49-cent C. of Post | 6.00       | 6.75   |
| 50-cent C. of Post | 6.00       | 6.75   |

The variation in price is due to the number of stamps in each sheet or block, ranging from 120 stamps in a sheet and four in a block, to 100 in a sheet and 25 in a block. Full sets of postage stamps in each issue of full sets of blocks may be obtained at corresponding prices. In ordering, collectors must include return postage and registry fee in their money order payment for the stamps requested.

Provision will also be made for first-day cover service on March 15 at the postoffice in Washington, D. C. to be limited to the items available in blocks of four stamps. Collectors may send not to exceed five envelopes, self-addressed, for each of the 15 varieties which will be available in blocks of four, to the postmaster at Washington, D. C., with remittance preferably in the form of a money order payable to the postmaster to cover the value of the stamps to be affixed. Orders for these stamps of the new issue must not be included with requests for covers, as they must be obtained from the Philatelic Agency, in addressing the covers, a space three and one-half inches square must be left at the upper right hand corner for affixing the stamps. The kind of stamps should be marked on each envelope.

## CHEVROLET MASTER DE LUXE MODEL ON DISPLAY HERE

Pictured above (left) is the new Chevrolet Master De Luxe sedan, and at the right is the new Master De Luxe sport sedan. Other models available in the new Master De Luxe line include sedan, coach, sport coupe and town sedan. Master De Luxe models have protective "turret tops," a single sheet of seamless solid steel, and the Chevrolet famed enclosed knee-action.

The new Chevrolet Master De Luxe model, strongly emphasizing beauty and style, was displayed for the first time yesterday in Torrance at the showroom of Ed. Thompson, Chevrolet dealer at 4001 Caville avenue, and in announcing much attention from motorists who have been waiting for a glimpse of the latest Chevrolet.

Virtually the new Master De Luxe retains only the characteristic outline of the radiator, and the familiar trade-mark on hubcaps and radiator emblem, to indicate that it is of Chevrolet origin. Every detail of the car is new, starting with the front bumper and including the radiator grill, the prominent front fenders, the radiator filler cap (now under the hood), the horizontal hood covers, the winged hood pattern, streamlined door handles, spare tire mounts (mounted in some models), tail lamp and rear bumper. Aside from appearance, there are important improvements in body comfort and spaciousness, and especially in the ride. The wheelbase of the new Master De Luxe is increased to 113 inches, and an even greater increase in body space has been gained by moving the engine forward. The appearance of great length has been enhanced by lowering the floor level, dropping it one inch lower to the ground by lowering the chassis side rails.

**Turret Top**  
A protective "turret top" of solid steel features the flatter bodies of the 1935 Chevrolet Master De Luxe models. Offering greater safety, strength and durability than ever before, the new type of body construction was designed on the principles governing the construction of battleship gun-turrets which are known to be the strongest structures built to withstand shock. The driver and passengers are protected by solid steel, scientifically insulated from weather discomforts, outside shock, and engine and body noises. The construction of the "turret top" also eliminates the possibility of troublesome leaky roofs which are costly to repair.

The 1935 Chevrolet Master De Luxe "turret top" bodies also feature improved no-draft ventilation in which the vent-panes have been changed to conform with the new body lines and to eliminate as nearly as possible the wind-whistles that accompany driving at high rates of speed. Additional space is made available in the interior by the streamlining of the "turret top."

**Oyster Caught Rat**

SMITH CREEK, N. C. (U.P.)—Soon after killing a dozen newly-gathered oysters on the kitchen floor of his home here, J. A. Withington heard a peculiar noise. Entering the kitchen, he found that an oyster had caught a large rat by the tail. The oyster and his captive were placed on display at a fish market.

### IMPROVEMENT program meets RESPONSE

Judging from the inquiries and requests received up to the present time, much interest has been shown by the farm and home improvement program sponsored by the federal government and now here under the auspices of the Torrance High School, under the direction of instructor in agriculture and animal husbandry, Mr. Wescott, with Ernest England, instructor in building construction, in charge of the course, which has already attracted many students.

Much of the time is given over now to problems of poultry raising. Some students wish to know if they are keeping the right type of birds, and while this is not the best time to call, they want to estimate the benefits from their flocks, and keep only the producers, which is a very timely note.

Owing to excessive cold and rainy weather, flocks have been victims of colds and runs, and the problems arising from these conditions have been widely discussed. Since much of this trouble is due to faulty housing, important suggestions for changes and improvements have been made. The instructors are anxious to have more inquiries, either in the Westinghouse Company's

### Widow Sues For Heavy Damages

March 14 has been filed for trial of the \$50,000 damage suit brought by Mrs. Esther Parrish for the death of her husband, Hugh D. Parrish, of Long Beach, as the result of a traffic accident at Figueroa and 14th streets, August 29, 1933. Parrish died of a skull fracture shortly after he had been brought to the Coast Highway Torrance Memorial hospital.

The General Petroleum Corporation and W. L. Barough, driver of one of the company's automobiles, are named defendants in the action. Parrish was survived by his widow and two children.

24,840,000 Autos Registered

BOSTON, (U.P.)—There are 24,840,000 automobiles registered in the United States, according to a survey by the First National Bank of Boston. This represents 72 percent of the total for the world.

Insuring problems, or along agricultural or animal husbandry lines. Those who are looking for helpful suggestions are invited to telephone the high school or send a postcard or letter addressed to either of the instructors and one or both will make a personal call immediately.

The instruction is not confined to poultry raising, but problems in all types of agriculture from examination and control of soils to disease and pest control, care of rabbit, pigeon and other small stock, bee-keeping, and all types of building construction, estimation, planning, are included. No matter what your farm-home problem may be the instructors are prepared to give helpful suggestions, and a call will bring them. It is not necessary to go to the high school, in fact more definite instruction can be given at the home, where the problem can be studied at first hand.

## THE GAS TO COOK YOUR MEAL COSTS LESS THAN THE MAYONNAISE ON YOUR SALAD

Only your most insignificant household expenses compare with your gas cooking bill. For instance, a small amount of mayonnaise costs more than the gas to cook your entire dinner.

The average expenditure for cooking, by nearly a million users of gas in this region, is about 1 cent per meal per family.

It is well to remember that natural gas is efficient, clean, and exceedingly economical for cooking and water heating, as well as for refrigeration.
